## Foreword

I am sure we have achieved what a team committed to excellence in higher education can achieve to its maximum capacity in a short span of four years. It has been the ambition of stakeholders of the University that the University should set a model to the rest of the scenario, and now we can proudly vouch that we took the challenge head on and demonstrated what kind of grit, hard work and perseverance a team can exhibit on its path towards transformation.

The situation in Tumkur University was rather discouraging when I assumed office as the Vice Chancellor in May 2009. From infrastructure to academic progress to research, the entire University was anticipating a complete rejuvenation. Absence of a campus of its own, scarcity of staff, non-availability of well-equipped classrooms, libraries and laboratories plagued the University making the future very bleak.

However, the situation did not deter our conscience and determination. It was a testing time for all of us. We began the *tapas* and started realizing our dreams with a mindset that this is the only opportunity one will get in his lifetime. ‘*Karmanyē Vadhikaraste Ma Phaleshu Kadachana*’ - the great statement of the Gita gave us the much needed moral backup. We went on with our perseverance and to our support we received a great deal of cooperation from some philanthropists, government and the general public. The present book is an effort to look at the past objectively with the mere intention of documenting the past. I am sure anybody can make his/her own analysis of the University’s honest march towards transformation and excellence by going through the document.

Autonomy, fairness, intellectual curiosity and humanism are the hallmarks of any great university anywhere in the world. At Tumkur University, we can now confidently say that we have at least made a beginning towards realizing this ideal. You were with us during our critical times and I am sure, you will be with us forever.

**Prof. S. C. Sharma**, Vice Chancellor

## Preface

Ensuring quality higher education is one of the most important things we can do for future generations. All the efforts we have put in the past four years have been aimed at realizing this goal. While taking up any initiative, Tumkur University has been very particular that the venture fits the framework of teaching, research and extension – the three fundamental pillars of higher education. We are confident that our disciplined, committed and prudent efforts have borne the most satisfying fruits.

The vibrant campus of Tumkur University itself is an open document which one can behold and make one's own assessment. A number of new state-of-the-art constructions, laboratories with the most advanced equipments, well-qualified staff and dynamic students, a large number of research projects from prestigious agencies, meaningful extension activities... a glance at the University with an unbiased mind will reveal the success story. The present document makes an effort to compile the progress that has been achieved in the past four years in a systematic manner.

It would be apt to quote the special observation made by the Expert Committee that visited the University last year to consider the University's fitness to receive Central assistance under section 12 (B) of the UGC Act: "Visionary leadership, enthusiastic and vibrant faculty members, disciplined students and a receptive and responsive non-teaching staff are the promising aspects for the healthy growth and development of this university on a fast pace targeting the empowerment of the rural students and public of predominantly rural Tumkur district." Perhaps, one can find it the most appropriate and objective analysis of Tumkur University's saga of success.

As an academic institution, we feel we are intellectually and morally beholden to the world we inhabit. Still we are aware that we have to go a long way before we make a lasting impact on the higher education scenario in India. I am sure your continued cooperation and encouragement will lead us to the zenith.

**Prof. D. Shivalingaiah**, Registrar

**Shree Shree Dr. Shivakumara Mahaswamiji**, Sri Siddaganga Mutt, Tumkur

*Sa Vidya Ya Vimuktaye*- Education liberates human beings. That is the best tool for liberation. It is unfortunate to see that most of the educational institutions across the country are not committed to impart value based education which can certainly liberate human beings. It is really appreciable that Tumkur University has expressed its commitment towards value-based education. Tumkur University has certainly recorded a miraculous achievement. I wish all the best to this University.

**Sri Sri Vishwasha Theertha Swamiji**, Pontiff of Pejawar Mutt, Udupi

“Whether the mind of man can conceive and believe, it can achieve”. Dr S C Sharma is a great educationist who had a prophetic vision about an ideal University. When the University was passing through turbulence, it was Dr. S. C. Sharma who held the reins and steered it towards the pinnacle of success.

Dr. S. C. Sharma is a great man of wisdom who has a matured outlook towards life. He is an embodiment of virtues. His unparalleled contribution towards as diverse fields as music and administration bears testimony to his iconic and multifaceted personality. As much as he is known for his flawless administration as a Vice Chancellor there lies within him a musical genius.

Prof. S C Sharma has become synonymous with dynamism, uniqueness, versatility and vibrance. Dr Sharma’s personality is a successful blending of intellectual gigantism and humanistic impulse. He has to his credit multiple doctorates most of which are self-earned. Dr S C Sharma after assuming charge as a Vice Chancellor took it as a challenge to achieve something in a positive sense. By his outstanding work, he brought dignity to the University and was responsible in making Tumkur University to chalk up a position for itself among other reputed Universities.

I have known Mr Sharma and vouch for the fact that he is an ardent follower of Sri Krishna and Swami Vivekananda. He is a true Karma Yogi, working always in the spirit of Yajna, without selfish motives. Dr Sharma is an extraordinary personality capable of executing his duties skillfully with right kind of attitude. I really appreciate his healthy personality where critical thinking, power of discrimination and power of making right decisions are significantly visible. Dr Sharma has proved, beyond doubt that people who are famous and powerful are highly responsible socially also. Then only the society not only get saved from evils and sufferings but also gets blessed by increase of good and happiness.

To quote from Gita, “Whatever superior person does, that is followed by others. What he demonstrates by action people will follow that”. Dr Sharma has set an example for the forecoming Vice Chancellors.

Yes, today people of Tumkur are proud of Dr S C Sharma for his laudable work which has changed the educational scenario of Tumkur. People reverentially have recognized his noble work. People of the State in recent years recognized Tumkur as an 'Educational City'. To gain such an esteemed status in education. Dr S C Sharma's valuable contribution is unforgettable. Dr Sharma's tenure as Vice Chancellor of Tumkur University will be recorded as a golden era in the history of Tumkur University. With his immense experience and excellent leadership qualities he has carved a niche by his yeoman service to the society.

**Shree Dr. Veereshananda Saraswathi Swamiji**, Ramakrishna-Vivekananda Ashrama, Tumkur

Ideally, education is the principal tool of human growth, essential for transforming the unlettered child into a mature and responsible adult. It is wisdom that the Buddha held up as the direct instrument of final liberation, as the key for opening the doors to the Deathless, and also as the infallible guide to success in meeting life's mundane challenges. Tumkur University is one such University where the students are equipped to face the challenges with values and courage.

**Acharya Buddha Rakhitha Bantheji**, Mahabodhi Society, Bangalore.

Many universities have not been able to even plan how to spend the funds given by the State Government under Kannada Bhashabhivruddhi Yojane. I am surprised that Tumkur University has utilized the entire amount of Rs. 1 crore and published 40 books apart from conducting various other programmes meeting the requirement of the project. I am sure this is the first university in Karnataka to complete the project.

**Late Dr V S Acharya**, former Minister for Higher Education, Govt. of Karnataka

Learning is not attained by chance; it must be sought with ardor and diligence. I am sure that the Tumkur University with its hallmark of enthusiasm, ambition and perseverance will not

**Justice N. Santhosh Hegde**, former Lokayukta of Karnataka

This is something that every university should be doing. We should have a holistic approach towards science and human studies.

**Dr. Nazeer Ahamed**, Advisor, World Organization for Resource Development and Education, Washington, U.S.A.

---

I am a live witness to all the developments related to Tumkur University from the day of its establishment till date. There were a lot of debates and discussions about very necessity of establishing a university in Tumkur. However, now, after witnessing the way in which the university made an impact not only in the district, but also in the entire country, I am convinced that it would have been a great loss to Tumkur if it had not been established at all.

**Sogadu Shivanna**, Minister for Environment and Ecology, Planning and Statistics, Government of Karnataka.

---

I am wondered at the number of intellectual meets being organized at Tumkur University in the form of conferences, seminars, workshops and symposia. I wish this vigour and enthusiasm lasts forever and the institution becomes a model to the rest of the universities.

**Dr. T V Venkatachalashastri**, renowned scholar.

## Tumkur University's march towards excellence

Tumkur University is galloping towards its ambitious dream of transforming itself into a center of international excellence in terms of both physical and intellectual growth. Anybody can easily recognize the significant steps taken up by the university towards an all-round development in the recent times. It is a known factor that the varsity was totally in a fragile condition a few years back without having its own campus, buildings or even minimum infrastructural facilities. It was Prof. S. C. Sharma, Vice Chancellor and Prof. D. Shivalingaiah, Registrar, who showed a new direction to the varsity, specifically in terms of infrastructure, teaching, research and extension, the basic pillars of higher education.

### INFRASTRUCTURE

**42 constructions:** The University had to rely on rented buildings for all its requirements including classrooms, laboratories, administrative office, hostels and library. However, under the able leadership of the two visionaries, the university took a bold step towards attaining self-reliance. The varsity has completed around 42 new construction projects at a cost of Rs 27.50 crore in a very short span. Dr P Sadananda Maiya Block, Dr V S Acharya Memorial Block, Prof. C. N. R. as per the latest UGC Regulations 2010. It may be apt to quote the observations of the Experts' Panel that examined the growth of the University:

## Tumkur University during its Miserable Times

***The destiny of a nation is shaped in her classrooms.***

Kothari Commission on Education, 1964-66

In the light of the above statement it is imperative that physical infrastructure in any college/institution/university be conducive enough to promote teaching-learning activities. Further, higher education in any system necessitates quality infrastructure for delivering quality education.

Tumkur University has set a model for other universities by its commitment towards the development. The University which was a place full of thorns just few years before has now been a place of beauty with new buildings, parks. One would certainly wonder to look at the all-encompassing change that has taken place.

Many apprehensions prevailed when the Tumkur University was started regarding the future of the University. Tumkur University since its inception in 2004 had been battling with conditions that were completely hostile, in order to meet the objectives of higher education. In fact, the University had to be built from the shambles even after five years of its formation. There was a great challenge before its visionaries since the varsity did not have a campus, sufficient classrooms and laboratories, other necessary infrastructure, teaching and non-teaching staff, and even some basic requirements to run the day-to-day affairs of the institution. It was literally in a critical condition.

There were no laboratories, well equipped library and hostels. The classes were being run by the guest faculty and it was really a herculean task to run the University under these critical conditions. The scarcity of well qualified faculty had certainly been one of the major challenges to be encountered with. Only four permanent teachers were there in the University when it was started. The University did not have 12(b) recognition and was not in

a position to get the grants from the University Grants Commission. Immediate attention was badly required to give a new lease of life to all these sectors. The University was desperately in need of a visionary leadership who could transcend the status of the University.

### **ADMINISTRATIVE FAILURE**

Nothing was in order as far as the administration of the university was concerned. All departments had to be built from the zero. Though there were all the sections like academic and syndicate, development, general and evaluation, they did not have the minimum infrastructure for their functioning, except a few ledgers!

There were no permanent Deputy Registrars, Assistant Registrars and other required non-teaching and technical staff and the administrative staff were working on temporary and consolidated salary basis. There was no adequate place for the administrative staff to sit and work. The staff had to work in a frustrated condition due to the congestion, lack of ventilation and other amenities.

Even after five years of its establishment the university did not have its own administrative block. All sections including the offices of the Vice Chancellor and the Registrar were located at Dr. B. R. Ambedkar Bhavan on MG Road in Tumkur City. All administrative sections which indeed require a spacious building for their proper functioning were housed in a single hall. They almost looked like name-sake sections and they were not functioning properly.

Further, there was no professionalism in the functioning of any of the sections. There was, for instance, not even a stock list for the day-to-day affairs. Many of the cupboards had not been opened for years. No proper auditing was being carried out. No proper procedure was being followed in purchasing also. Tender, e-Procurement, etc. were the words unheard of. There were bureaucratic and procedural lapses everywhere. Proper monitoring of the accounts and fiscal matters had never to be thought of.

## ACADEMIC COLLAPSE

Education is a dynamic, continually evolving concept that keeps adapting to the changes around it. Likewise, the methodology used in teaching is equally transitory in nature and demands contemporary approaches too. The universities have to imbibe the essence of evolutionary character of education in its academic curriculum, empowering students to create a learning process that is experimental, effective and thoroughly impactful. In order to redefine quality education, Universities need to blend high value deliveries with modern learning tools to ensure that each institution has a safe, healthy, energizing, intellectually challenging, and joyful learning environment. Tumkur University was not in a position to think of these ideals because of the various problems it had encountered with.

The university could not move an inch further in academic matters even after years of its inception. There was no initiative to start new courses. Academic discourses were minimum. Till 2009, there were not even efforts to form new Board of Studies (BoS) in any of the subjects. The same old Bangalore University syllabi were being followed for all the courses. Though Tumkur University was carved out of Bangalore University, it was not possible for the university to come out of the clutches of Bangalore University in academic matters. Tumkur University had not established an academic identity of its own.

There were only four permanent teaching staff in the university till Dr. S. C. Sharma's team took over the challenge of fresh appointments. Rests of all, including the non-teaching staff, were on deputations.

The Universities should also promote research and extension activities apart from imparting knowledge. No research and extension activities were being conducted in the University. Scientific research was certainly an impossible task to be dreamt of in the absence of laboratories and adequate library facilities. There were no research centers. UGC has been implementing a wide range of schemes and programmes which are expected to lead to progressive improvement of higher education in the country. In order to accomplish the multi-dimensional objectives of Higher Education, UGC has formulated and

implemented from time to time certain schemes which can lead to the realization of the goals of higher education by providing academic, administrative and financial assistance to the University and the Higher Education System in its entirety. Tumkur University was not recognized under 12(b) of UGC and it was not in a position to submit the project proposals to the University Grants Commission for funding. Even the colleges affiliated to the university were deprived of this privilege. Certainly, one might not have been able to dream things like NAAC accreditation and such other requirements in such a pathetic scenario.

Seminars and conferences of national and international repute would certainly augment the learning process in the universities. The absence of faculty and the adequate infrastructure had made it impossible to conduct seminars and conferences. More than infrastructure and staff, there was no motivation and willingness at all. There were no guest lectures, special lecture or invited talks, and the academic atmosphere was not at all visible in the university. The University should have its own publication wing to bring out the intellectual adventures it has taken up. Prasaranga had still been a nightmare for the University.

According to Prof. D. M. Nanjundappa Committee Report, Tumkur has been one of the backward districts of Karnataka State and most of the students who pursue their education in the university are of rural background. Majority of the students are from the marginalized sections of the society and it is the accountability of the University to empower such downtrodden people. The establishment of centers like Innovation and Entrepreneurship Development Centre and schemes like Special Component Plan and Tribal Sub Plan would certainly help the marginalized students.

The Innovation and Entrepreneurship Development Centre (IEDC) is being promoted in educational institutions to develop institutional mechanism to create entrepreneurial culture in academic institutions and to foster techno-entrepreneurship for generation of wealth and employment. The IEDCs are established in academic institutions (science

colleges, engineering colleges, universities, management institutes) having requisite expertise and infrastructure. The mission of the IEDCs is to "develop institutional mechanism to create entrepreneurial culture in academic institutions to foster growth of innovation and entrepreneurship amongst the faculty and students". The establishment of IEDC at University would certainly enhance the entrepreneurial culture in the university. However, the varsity could not take up any such initiatives till 2009.

Tumkur district is known for its historical importance and cultural heritage. It is the responsibility of the higher educational institutions to initiate programmes for the preservation and promotion of Cultural and historical heritage. Tumkur University had not initiated any programmes in this regard. Literature and folk traditions of the district were not taken into consideration.

Most of the students who pursue their in studies in the University are from the marginalized classes. Steps were not initiated to implement the programmes for the welfare and development of these students. Students from rural areas had to be given education along with accommodation; the lack of hostel facilities had it made impossible to impart education to such students.

### **LACK OF INFRASTRUCTURE**

As mentioned earlier, all the sections had to function with no infrastructure. The university simply spent time in searching sufficient land to establish its own campus, but there was no will power to construct at least a single building to house its administrative offices. They did not have even the concept of the constituent colleges.

Post Graduate classes were being run in the Government Pre-University College as a temporary arrangement but this situation prevailed for years. There were no proper classrooms, classroom equipment, laboratories, furniture and toilets. Most of the toilets were not in a useable state at the PG Centre. The library, hostels and guest houses were in rented buildings which were crowded and insufficient. Huge amount of money had to be

paid towards the rent, and the money that was collected at the time of affiliation and examination was being spent towards the rent and maintenance of the buildings thus hired.

Computerization was a far off dream for the university. Computers were used only to type some letters. All administrative and evaluation process were limited to paper works. No departments had internet connection too. As an outcome, the students were deprived of the knowledge that IT would give them. The University was unable to respond effectively to the emerging challenges and opportunities both at national and international level. It was a big challenge before the University to equip and enable the students to access the quality education and to make them ready for the global challenges.

### **PROTESTS & LITIGATIONS GALORE**

The university was continuously witnessing protests from various organizations. The administrators were finding it difficult to handle the situations. They had to spend time only in consoling the protesters and the organizations. The Hostels did not have the required facilities for the students and it was but inevitable for the students to demand their rights for a comfortable dwelling. They had only one weapon for the drawing the attention of the authorities and that was protest or dharna. The inmates of hostels were organizing protests and dharnas for lack of facilities every other day. People also used to protest demanding the university to vacate Dr. B. R. Ambedkar Bhavan.

The university was also struggling with a lot of litigations from various corners. When the staff on deputation were sent back to their mother institutions, the university had to face prolonged litigations. There were litigations regarding land issues too. The fixation of the boundaries had not been taken place and the University was still under the dilemma regarding its boundaries.

The attempts were also being made to recruit the teaching staff. Recruitments witnessed lot of irregularities and violation of norms.

When the university Syndicate felt that there had been a lot of irregularities in the appointments of the teaching staff during the previous Vice Chancellor, it decided to quash those appointments and to go for fresh appointments. Then also the university had to face prolonged litigations from a few candidates appeared for the previous process.

### **THE NEW LEADERSHIP**

It was in such a strange scenario, Dr. S. C. Sharma took over as the Vice Chancellor of Tumkur University, and he had with him Prof. D. Shivalingaiah as the Registrar. The first thing Dr. Sharma's team did was finding a campus of its own. With all their efforts, they were succeeded to get the government's permission to take over the erstwhile Government Science and Arts Colleges as the university's constituent colleges. Following this, the administrative office of the University which was located in a rented building was shifted to the premises of the constituent colleges, and now the University has been able to function from its own campus. A new administrative office has been built for the university where the constituent colleges had an old bicycle stand. Rapid steps were taken to transform the university into the centers of excellence of higher education, which have been briefly explained in the previous chapter. The entire report mirrors the fruits of the Herculean task taken up by Dr. S. C. Sharma, Prof. D. Shivalingaiah and their entire team in transforming the university.

The following section tries to bring together a few photographs from the past scenario which would more objectively depict the condition prevailed before 2009.

The very entrance of the then PG Centre explains the sorry state of Tumkur University existed before 2009.

**The buildings were almost crumbling and the students and the faculty members had to spend their time with continuous fear and uncertainty.**

How could anybody believe that the future of a nation lay in our classrooms! The condition of the classrooms at the PG Centre used to convey everything.

**The condition of classrooms and students was miserable. Lack of basic amenities and congestion marred their hopes.**

The University had to use this open space as its conference hall, and one can guess how many events might have been organized. The other picture shows the rest room for women.

**There was no store room to keep the broken furniture and waste materials. Everything had been haphazardly thrown in a corner of the building.**

No need to explain the plight of the toilets the students and the staff had to bear with.

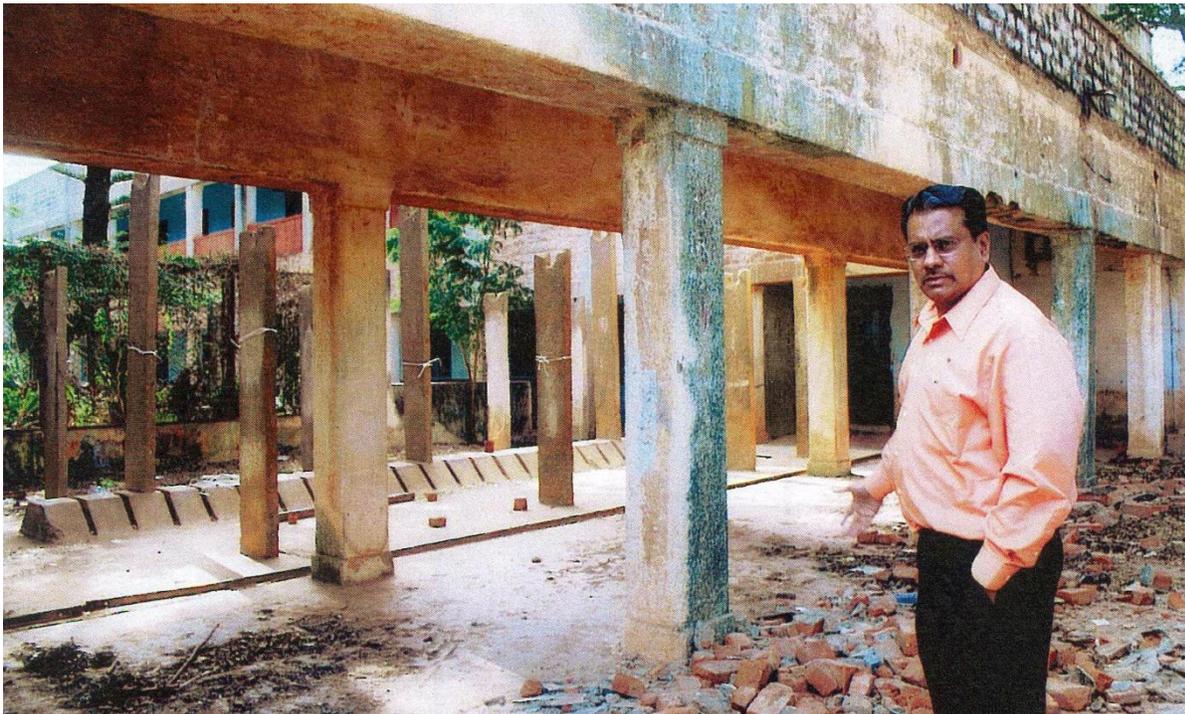

**Pathetic situation prevailed in the hostels meant for boys belonging to SC/ST communities which had no proper toilets and bathrooms.**

The kitchens of the hostels were highly unhygienic, and the inmates used to have scuffle with the authorities every other day disturbed by the poor maintenance.

Even after shifting the university to the Constituent College campus, hurdles were enormous in giving a proper shape to the university. Everything had to be rejuvenated and rebuilt.

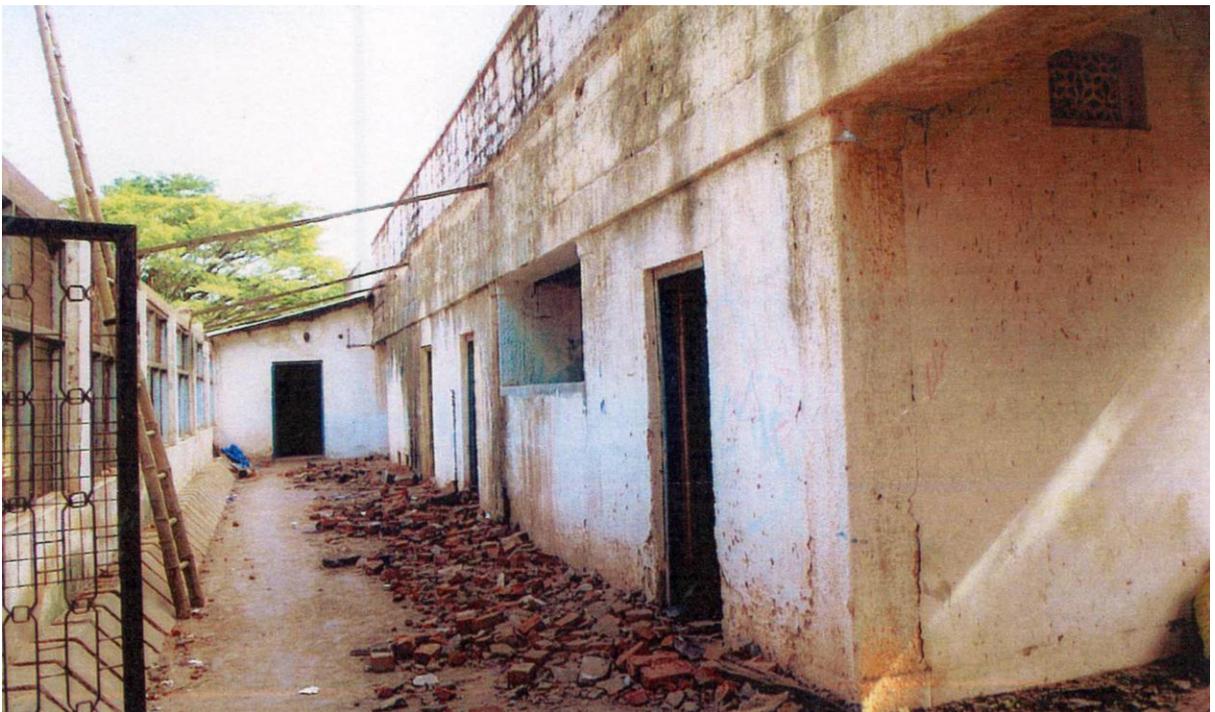

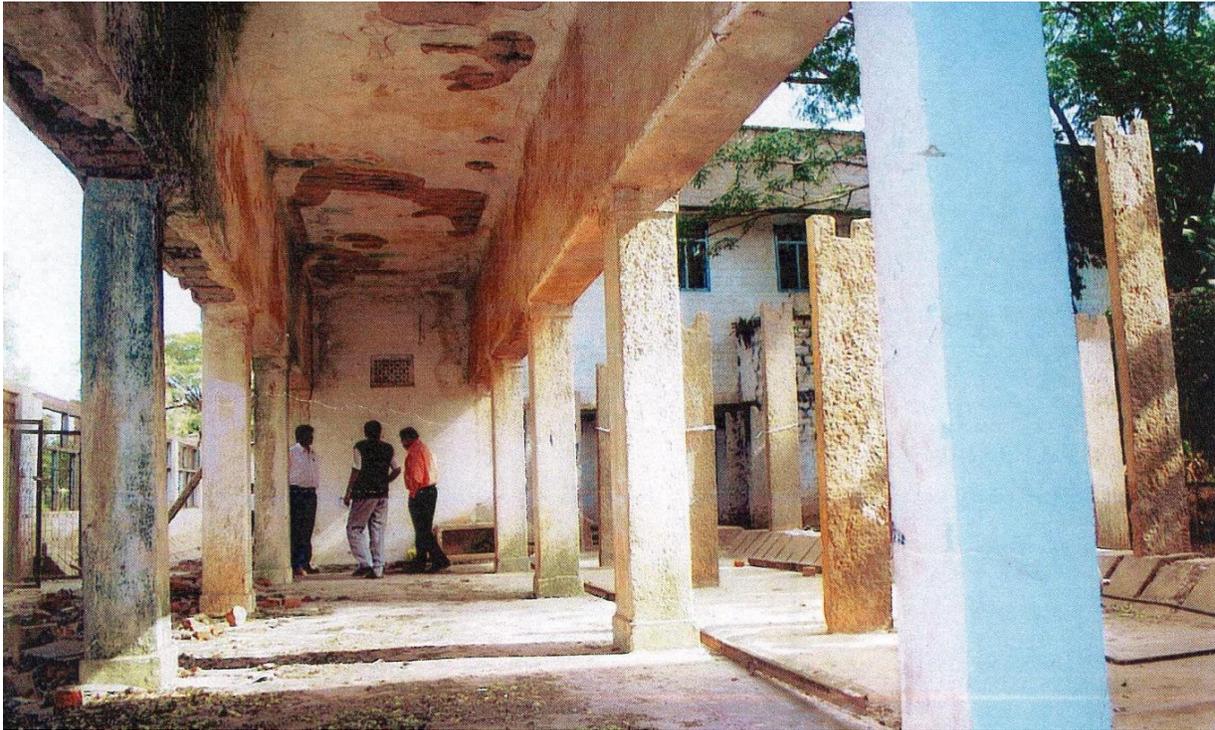

**The sorry state of the infrastructural facilities at the Government College.**

**The sorry state of the infrastructural facilities at the Government College.**

**Plans were worked out to convert the bicycle stand of the then Government Science College into the administrative block, which then became the launching pad of all developmental activities in the next 3-4 years.**

## Campus Networking

Tumkur University, especially a rural university, has achieved a great feat by transforming its campus into a totally internet-enabled campus. Now, any faculty and student can access internet anywhere in the campus because of its ‘Campus Networking’ project.

The campus has around 200 LAN points and 10 Wi-Fi points. The idea of using Information Communication Technology (ICT) for excellence in higher education has become a reality, and Tumkur University provides the best example for it. The following diagram explains the campus networking concept in a precise manner.

Network diagram of Tumkur University.

## Library facilities

Tumkur University has three separate libraries, one exclusively for the PG Departments, while two others for the Constituent Colleges. Presently, the University Library is housed at the state-of-the-art Dr. V. S. Acharya Memorial Block.

## Examination Reforms

True to the idea that the efficient functioning of the examination/evaluation section is the backbone of any university, Tumkur University has given utmost priority to strengthen and refine its examination system. Transparency, speed and vigilance being its watchwords, the evaluation wing has carved a distinct identity among the various departments of university. The University has got an exclusive Pareeksha Bhavan on its campus in 2012 comprising various sections of the evaluation unit, office, coding centre and spacious hall for centralized valuation. Some of the salient features of the Evaluation Section have been highlighted here:

- The examination section of the university is completely automated.
- The university is providing tamper proof convocation certificates from its third convocation.
- Computerized coding has been introduced doing away with the manual coding.
- Computerized bar coding system has made the process transparent, fast and effective.
- No separate admission tickets need to be issued to students to appear for exams in pending subjects since the computerized admission ticket indicates all the pending subjects each time.
- The university has also introduced single-answer booklet system both in undergraduate and postgraduate examinations. The introduction of the 36-page single booklet system has avoided misuse of additional sheets while it encourages judicious use of space by the students.
- There were 34 exam centers for the undergraduate examinations earlier. On the basis of the suggestions of the vigilance squad, some of the sensitive centers have been closed. Presently, there are only 27 centers.
- Within four days of the commencement of the degree examinations, coding of the answer scripts begins, while valuation begins within 8-10 days. The university is

announcing results within 15-20 days of the examinations, which is a distinct feature of the University.

- Question paper (QP) Code has been introduced, which has enabled easy identification of the question papers and easy differentiation between old and new schemes.
- Online entry of Internal Assessment marks has been introduced. This has enhanced transparency. Students can view their IA marks as soon as they are uploaded to the university website.
- Online entry of marks is being done from the valuation unit itself. This has enabled three-stage verification, where valuer-reviewer, data entry operator and valuer-reviewer cross check the entry of marks.
- Online entry of marks saves a lot of time and enables quick and timely announcement of results.
- Exam-related correspondence with colleges is being done through e-mail.
- The announcement of exam results has also gone online.
- Question papers of the entrance examinations for the selection candidates for Ph.D programmes and also for the one following the course work are set by external examiners. Double valuation method is being followed in both the cases.
- Cluster model is being followed for conducting B. Ed exams in Tumkur district.
- The answer scripts of the B.Ed. exams get coded on the day of exam itself, and the valuation process begins within 3-4 days. Due to this, the university is able to announce the B.Ed. results in a very short span of 15-20 days.

## Automated Weather Station

Automated Weather Station (AWS), the latest of its kind in the State, established in Tumkur University, is a proud initiative of Indian Space Research Organization (ISRO). Established in the campus of the University in May 2010, this AWS is an agriculture-friendly venture in addition to addressing the research and education needs.

The AWS with its capacity of providing weather updates in a range of 80 km is successfully being monitored by a team from Tumkur University

The daily, weekly and monthly updates are being meticulously collected by the students of the monitoring team as part of the documentation. The Centre is engaged in the study of the impact of humidity on the rainfall. This gains significance, given the fact that the average rainfall received in Tumkur district is far less than the State average.

The Centre also facilitates a comparative analysis of the similar information available in the 111 AWSs already functioning across the State. Apart from directly benefitting the rain dependent agriculture, the Centre provides information on weather which would be useful or organizations like ISRO, DRDO, Airport Authority, Army, Navy, Air Force, Coast Guard, Media and Agriculture Universities and so on.

## Remote Sensing Centre

Tumkur University in collaboration with the Indian Space Research Organization (ISRO) is setting up a Remote Sensing Centre in its campus at a cost of Rs 34 lakh. The process of establishing the Centre is in full swing. Advanced softwares are being set up at a cost of Rs 16 lakh, while the University is providing the infrastructure for the Centre with an expenditure of Rs 15 lakh. The softwares which the Centre has got are the most advanced ones, said to be more advanced than those functioning at ISRO. The Centre will be collecting data on the availability of ground water, bio-diversity, green cover, fisheries and mineral availability in Tumkur district. The data will not only contribute much for further studies and research but also for the economic development of the region. Different sections of the society, including farmers will be benefitted by the project.

## Bharatratna Dr. M. S. Subbulakshmi Art Gallery

*A rare photograph of the young MS playing Veena.*

Bharatratna Dr. M. S. Subbulakshmi Art Gallery has been a center of attraction on the Tumkur University campus for the connoisseurs of music and art. Hundreds of people have visited the Gallery so far and enjoyed the rare collection of photographs explaining the life and contributions of the doyenne of Carnatic music.

The gallery, along with a four-and-a-half-foot bronze statue of the doyenne sitting with her tamboori, and a bronze bust of shehnai maestro Bismillah Khan, was unveiled by Dr. H. R. Bhardwaj, His Excellency the Governor of Karnataka on June 29, 2012. The moment became more meaningful when Smt. Radha Vishwanathan, MS's daughter and disciple, was felicitated by the University at the Gallery itself.

In fact, Smt. Vishwanathan has contributed about 300 rare photographs of the music legend, due to which the unique initiative of Tumkur University has been possible. The photo

exhibition is a permanent one, which is open for public on all the days. The gallery is also of great help to the students of Bachelor of Fine Arts course run by the university.

## Prof. C. N. R. Rao Centre for Advanced Materials

***Professor C. N. R. Rao receiving a National Award from Dr. Manmohan Singh, the Hon'ble Prime Minister of India. Many such rare photographs and the facsimile of hundreds of awards conferred on Prof. Rao have been displayed at the Centre.***

Tumkur University, with utmost concern towards research and development, has come up with a first-of-its-kind research centre dedicated to Advanced Materials, comprising the most advanced equipments of the field. The Centre has been named after eminent scientist Prof. C. N. R. Rao, FRS, National Research Professor, Linus Pauling Research Professor & Honorary President, Jawaharlal Nehru Centre for Advanced Scientific Research, Bangalore.

Rao is one of the world's foremost solid state and materials chemists. He has contributed to the development of the field over five decades. His work on transition metal oxides has led

to basic understanding of novel phenomena and the relationship between materials properties and the structural chemistry of these materials. He is the recipient of at least 50 Honoris Causa from the reputed universities across the world.

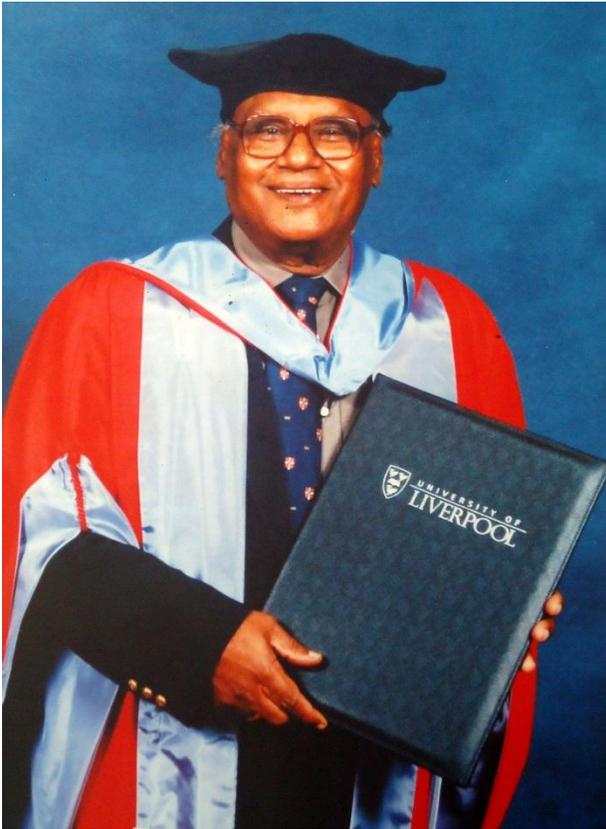

Prof. C. N. R. Rao Centre for Advanced Materials at Tumkur University is going to be the most-sought-for place for research in Advanced Materials since it houses the most advanced equipment for research in the field such as the X-Ray Diffractometer, Scanning Electron Microscope, Spectrofluorometer and the like worth lakhs of rupees.

***The bronze bust of Professor C N R Rao. (Right) The advanced X-Ray Diffractometer.***

The speciality of the Centre is that two Nobel laureates have been the Honorary Distinguished Professors here, namely Prof. Kurt Wuthrich, ETH Zurich, Switzerland and Prof. Rudolf Marcus, Noyes Professor of Chemistry at the California Institute of Technology, the USA. Renowned scientist Prof. Tarachandra, School of Mechanics, Materials and Mechanotronics, University of Wollongong, Australia, is also a Honorary Distinguished Professor at the Centre.

The Centre also displays some of the rare photographs of Prof. Rao and the facsimile of the awards, medals and citations conferred on him on various occasions, apart from his bronze bust at the entrance. The Centre was inaugurated by Dr. H. R. Bhardwaj, His Excellency the Governor of Karnataka on April 2, 2013 in the presence of Prof. Rao himself.

## Dr. B. R. Ambedkar Museum

Bharatratna Dr. B. R. Ambedkar and Babu Jagjivan Ram Museum is one of the most striking and the latest features of Tumkur University. The 122<sup>nd</sup> birth anniversary of Dr. Ambedkar and the 106<sup>th</sup> birth anniversary of 'Babuji' were marked by the inauguration of the Museum on April 14, 2013. Featuring a number of rare photographs depicting the life and achievements of the two national leaders, especially of Dr. Bhimrao Ramji Ambedkar, the Museum has been termed a potential research center into the philosophy of the Architect of the Indian Constitution. Dr. Banandur Kempaiah, President of Karnataka Janapada Academy, who inaugurated the Museum has rightly termed that there would not have been a better way to offer tributes to the great human soul than launching a first-of-its-kind museum.

The Museum also houses a bronze bust of Dr. B. R. Ambedkar apart from the well-displayed rare collection of photographs. The photographs have been collected from the relatives of Dr. Ambedkar in Nagpur, and from various sources in Pune and Delhi. The Museum is intended to throw lights on the multi-dimensional personality of Dr. Ambedkar, who was a reformer, philosopher, diplomat, scholar, leader, economist and above all, a great human being.

## Pandit Madan Mohan Malaviya Bhavan

Pandit Madan Mohan Malaviya Bhavan stands an important milestone in the development saga of Tumkur University not just because that it is a well-designed and meticulously planned VIP guest house but because it has emerged a unique monument mirroring the contributions and ideals of Pandit Malaviya, one of the rarest of the personalities India has ever seen.

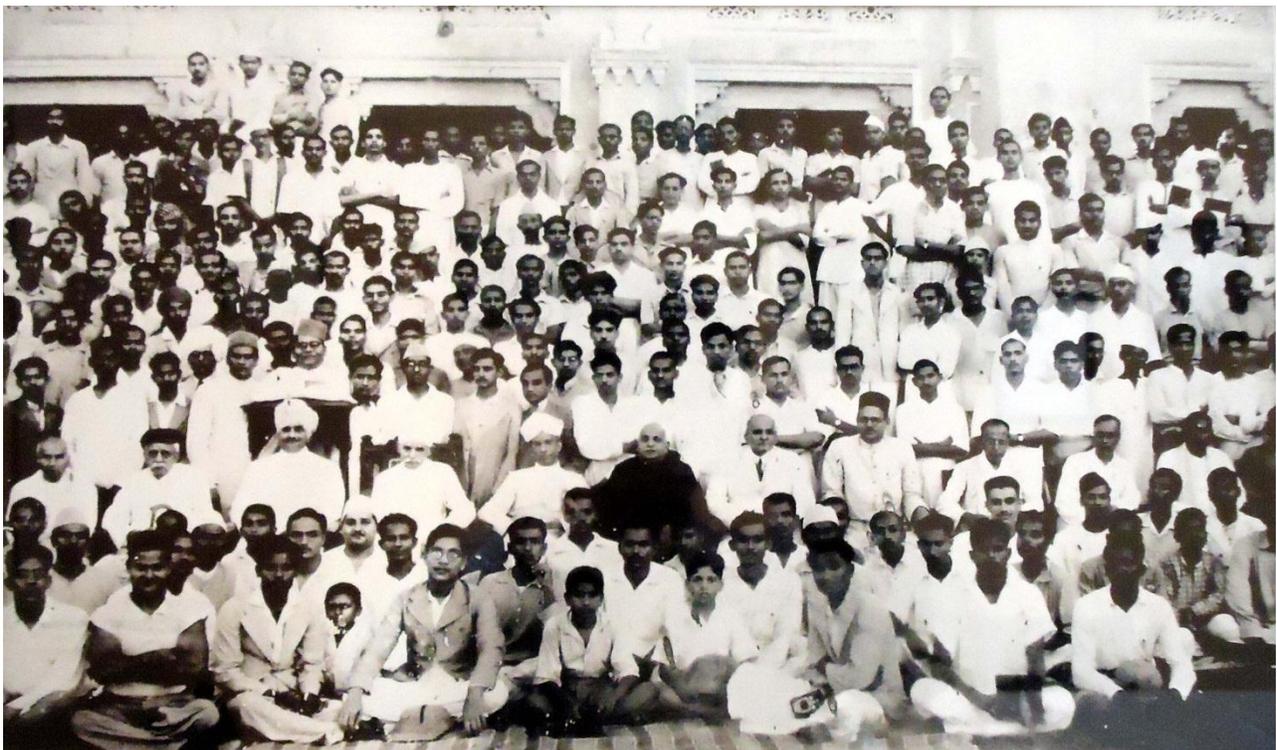

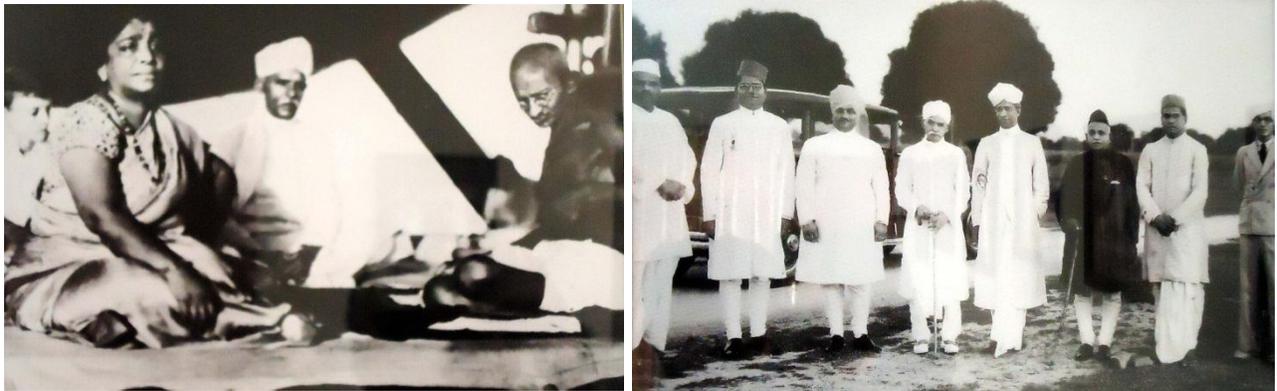

Malaviya (1861–1946) was an educationist, and freedom fighter notable for his role in the Indian independence movement and his espousal of Hindu nationalism. Today he is most remembered as the founder of the largest residential university in Asia and one of the largest in the world, having over 12,000 students across arts sciences, engineering and technology, Banaras Hindu University (BHU) at Varanasi in 1916, of which he also remained the Vice Chancellor, 1919–1938. He also founded a highly influential, English-newspaper, ‘The Leader’ published from Allahabad in 1909. He was also the Chairman of Hindustan Times from 1924 to 1946.

The VIP Guest House of Tumkur University, dedicated to Pandit Madan Mohan Malaviya, intends to reflect the noble principles propagated by the great nation builder. Malaviya, who built the great university from a thatched hut, has been an ideal for Tumkur University that

has been developed into a center of educational excellence in a very brief span of time. It has already been mentioned that even after six years of its establishment, Tumkur University could not develop its own campus, but the developmental works carried out in the past four years have given a new identity to the University at the national and international arena.

The photographs, each one having the qualities of the works of a great artist, have been collected from Banaras and neatly displayed at the Malaviya Bhavan. The Bhavan also displays the great thoughts of Pt. Malaviya and scholarly books on the great personality.

## Buddhavana

As all are aware, Siddhārtha Gautama is a spiritual teacher who founded Buddhism. In most Buddhist traditions, he is regarded as the Supreme Buddha of our age, "Buddha" meaning "awakened one" or "the enlightened one." The time of his birth and death are uncertain: most early 20th-century historians dated his lifetime as c. 563 BC to 483 BC, but more recent opinion dates his death to between 486 and 483 BC or, according to some, between 411 and 400 BC. Some of the inscriptions found from Orissa make historians believe that Buddha was born in a village

Kapilesvara near Bhubaneswar, Odisha based on many evidences including the Ashokan inscriptions. By tradition, Gautama is said to have been born in the small state of Kapilavastu, in what is now Nepal, and later to have taught primarily throughout regions of eastern India such as Magadha and Kośala.

Gautama, also known as Śākyamuni ("Sage of the Śākyas"), is the primary figure in Buddhism, and accounts of his life, discourses, and monastic rules are believed by Buddhists to have been summarized after his death and memorized by his followers. Various collections of teachings attributed to him were passed down by oral tradition, and first committed to writing about 400 years later.

To give emphasis to the study of the preaching of Buddha, which have universal acclaim, Tumkur University has established a Buddhavana on its campus. Buddhavana is one of the unique initiatives of the University, which has naturally enhanced the beauty and vibrance of

the varsity's campus. As soon as one enters the campus through its elegant and majestic main gate, he will certainly stop for a while to behold the beauty of the Buddhavana located on the right side of the entrance, realizing the essence behind the varsity's vision. The statue of Bhagwan Buddha, specially prepared for the establishment, has enhanced the divine quality of the unique site. The University has plans to upgrade Buddhavana into a Centre for Studies and Research in Pali.

## Dhanvantarivana

Dhanvantari was an early Indian medical practitioner and one of the world's first surgeons. Based on Vedic traditions, he is regarded as the source of Ayurveda. He perfected many herbal based cures and natural remedies and was credited with the discovery of the antiseptic properties of turmeric and the preservative properties of salt which he incorporated in his cures.

Being a very skilled surgeon according to the standards of his time, he is widely believed to be the pioneer of modern medical practices like plastic surgery. Albeit his methods were a lot cruder and more painful

and were used only in emergencies, such as on the injuries of war victims.

All his surgeries were performed without anesthetic, however in spite of his crude methods he was reported to have had a very high success rate. As a result of the brilliance and achievements he displayed in the field of medicine he was chosen as one of the Nine Gems

in early Indian ruler Vikramaditya's court. According to traditions, he taught surgery methods and procedures to Susrutha, the Father of Ayurvedic Surgery.

Dhanvantari is depicted as Vishnu with four hands, holding medical herbs in one hand and a pot containing rejuvenating nectar called amrita in another. The Puranas state that Dhanavantari emerged from the 'Ocean of Milk' and appeared with the pot of nectar during the story of the Samudra or Sagar manthan whilst the ocean was being churned by the devas and asuras, using the Mandara mountain and the serpent Vasuki. The pot of Amrita was snatched by the Asuras or Demons, and after this event another avatar, Mohini, appears and takes the nectar back from the Asuras.

The Tumkur University has made its campus meaningful and attractive by establishing a separate park called Dhanvantarivana that features many medicinal plants. The center of attraction here is a life-size statue of Sri Dhanvantari, located in front of the University College of Science and right opposite to the Buddhavana. If developed as per plans, the Dhanvantarivana is certainly going to be a full-fledged botanical garden, providing a great experience to students, researchers, academicians and general public.

## Open Sculpture Gallery

The main objective of the Open Sculpture Gallery was to collect, preserve, and display significant archaeological antiquities (such as Architectural components, Sculptures etc.) of the historical heritage of Karnataka and to showcase its development in the fields of art, architecture, technology and aesthetics. The gallery, set within a beautiful garden, consists of over 24 exquisite antiquities collected from Banavara (Hassan district), Kanchikere and Nellukudure (Davanagere district) with permanent documentation labels that provide information about the site, provenance (place and time of origin), monument, form and type of object, patronage, iconography, material etc. The gallery, besides being a recreational locale also acts as a module for heritage awareness program for the general public.

Prof. U. S. Moorti, the Principal Researcher and Team Leader (in association with Dr.M.Kotresh, Associate Professor, Department of Studies and Research in History & Archaeology and Dr. Siddalingaswamy Hiremath, Co-ordinator, Centre for Fine Arts, Animation and Design) created the Tumkur University's "Open Sculptural Gallery" (December 2011 – June 2012).

## Monuments Park

Monuments Park is one of the much appreciated efforts of Tumkur University, realized under Kannada Bhashabhivruddi Yojane. The concept of Monuments Park got concretized in a very short duration, with the combined efforts of the Kannada Information and Research Centre and the Department of Fine Arts.

After conducting a detailed field survey of Tumkur district, the team from Tumkur University collected a number of monuments from across the district, having a lot of historical value. The monuments include various inscriptions, veeragallus (stones in memory of warriors), and statues worshipped by the traditional folk and so on. The pieces with historical significance were installed in a systematic way in front of the administrative block of the University, adjacent to the Ramana Maharshi Dhyana Kendra. Based on the research and study, suitable descriptions were also added to the monuments. The faculty and students of the Fine Arts Department added to the beauty and value of the Park by installing works of art and sculptures along with the collected monuments.

A row installed in front of the varsity's administrative division is a mixture of traditional and modern art, symbolizing various aspects of higher education and social life in general. A lot of students and general public have started visiting this park in the morning and evening hours. Undoubtedly, the Monuments Park is a major attraction for researchers, students and academicians.

## Sri Ramana Maharshi Dhyana Kendra

Sri Ramana Maharshi (1879 – 1950), was a Hindu spiritual figure. He was born to a Tamil-

speaking Brahmin family in Tiruchuzhi, Tamil Nadu. After supposedly having attained liberation at the age of 16, he left home for Arunachala, a mountain considered sacred by Hindus, at Tiruvannamalai, and lived there for the rest of his life. Although born a Brahmin, he

declared himself an "Atiasrami", a Sastraic state of unattachment to anything in life and beyond all caste restrictions. The ashram that grew around him, Sri Ramana Ashram, is situated at the foothill of Arunchala, to the west to the pilgrimage town of Tiruvannamalai.

Sri Ramana maintained that the purest form of his teachings was the powerful silence which radiated from his presence and quietened the minds of those attuned to it. He gave verbal teachings only for the benefit of those who could not understand his silence. His verbal teachings were said to flow from his direct experience of Atman as the only existing reality. When asked for advice, he recommended self-enquiry as the fastest path to moksha. Though his primary teaching is associated with Non-dualism, Advaita Vedanta, and Jnana yoga, he recommended Bhakti to those he saw were fit for it, and gave his approval to a variety of paths and practices.

The University has established a Dhyana Kendra that has been named after Sri Ramana Maharshi. The Dhyana Kendra is a unique, calm and precious place for Yoga and Meditation, which has been graciously welcomed by the general public, especially the senior citizens. A statue of Sri Ramana Maharshi has been established at the platform of the Dhyana Kendra which accommodates at least 200 persons at a time. The Dhyana Kendra is featured by a senior citizen's park, rest benches, walking tracks and enchanting greenery. Invaluable thoughts of the teachings of Sri Ramana Maharshi and Bhagavad Gita have been displayed at different places across the Dhyana Kendra giving it a new meaning and atmosphere.

### *A Kannada Bhashabhivruddhi Yojane Initiative*

## **Development of Optical Character Recognition for Printed Kannada Text**

Development of Optical Character Recognition (OCR) for Printed Kannada Text is one of the major initiatives undertaken under Kannada Bhashabhivruddhi Yojane.

The recognition of handwriting by machines has been a research topic for over 40 years. While high recognition rates in the case of recognition of isolated numerals are standard today, system performance decreases significantly for more complex cases like numeral string recognition or the recognition of isolated handwritten words. Only in the last decade have researchers begun to investigate the recognition of general handwritten text.

### **The Kannada script**

The Kannada alphabet is classified into two main categories vowels and consonants. There are 16 vowels and 35 consonants as shown in figures 1 and 2. Words in Kannada are composed of aksharas which are analogous to characters in an English word. While vowels and consonants are aksharas, the vast majority of aksharas are composed of combinations of these in a manner similar to most other Indian scripts.

An akshara can be one of the following,

- A stand alone vowel or a consonant (i.e. symbols appearing in figures 3.1 and 3.2).
- A consonant modified by a vowel.
- A consonant modified by one or more consonants and a vowel.

ಅ ಆ ಇ ಈ ಉ ಊ ಮು ಮೂ  
ಎ ಏ ಐ ಒ ಓ ಒ ಒ ಅಂ ಅಃ

**Figure 1: Vowels in Kannada**

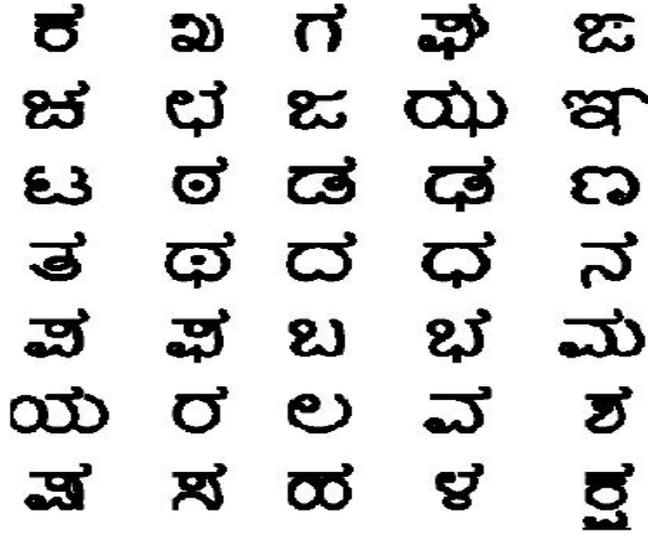

Figure 2: Consonants in Kannada.

When a vowel constitutes the whole akshara, the vowel normally appears at the beginning of a word. A consonant forms the whole akshara only when it is combined with a vowel and can come anywhere in the word. These aksharas appear in the top region of the line and are represented by the same glyph as shown in figures 3.1 and 3.2. When a consonant C and a vowel V combine to form an akshara, the akshara is composed by retaining most of the consonant glyph (figure 3.2) and by attaching to it the glyph corresponding to the vowel modifier. The vowel modifier glyphs are different from those of the vowels and are shown in figure 3.3. The glyph of the vowel modifier for a particular vowel is attached to all consonants mostly in the same way, though, in a few cases the glyphs of the vowel modifier may change depending on the consonant. Figure 3.3 shows two of the consonants modified by all the 16 vowels. In this figure, the second row shows the vowels, the third row shows the glyphs of the vowel modifiers, the fourth and fifth rows show the consonant–vowel (C–V) combinations for two consonants which phonetically correspond to c as in cat and y as in yacht. As can be seen from the figure, the vowel modifier glyphs attach to the consonant glyphs at up to three places corresponding to the top, right and bottom positions of the consonant. It can be observed that the widths of the

information such as co-occurrence frequencies of letters, a word corpus, a rudimentary model of the grammar etc. may be used. This allows the system to automatically correct many of the errors made by the OCR subsystem.

### Feature Extraction from document Image

Once the preprocessing of the image is over, the lines and words are then separated using horizontal and vertical projections. The words are segmented into smaller parts. To achieve this segmentation, the word is first split into three vertical zones based on the horizontal projection for the word. The three zones are then horizontally segmented using their vertical projections. These segments are then put to the recognizer. Extract features from the bitmaps of the segments. Three different types of feature sets are extracted.

### Support Vector Machines

The Support Vector Machine (SVM) , Self Organizing Map(SOM) with K-nearest neighbor (KNN) and Feed-forward with back-propagation are some of the classifiers. SVM's represent a new pattern classification method based on statistical learning theory. The solution offered by SVM methodology for the two class pattern recognition problem is theoretically elegant, computationally efficient and is often found to give better performance by way of improved generalizations.

Kannada, being the official language of Karnataka, is used extensively in Government offices and other places. An OCR system will help to greatly reduce the work associated with the large number of documents handled in the Government offices. Valuable information present in the old Kannada manuscripts can be digitized and stored in the computer. It will be very useful to have the information stored in this manner so that it is not lost when the manuscripts become soiled.

The participatory approach of the Centre has evoked a great response from the villagers. At least 4000 people are benefiting from the extension programmes of the CDC every year. Encouraged by the kind of response from the villagers, Tumkur University is planning to establish a few more community development centres in Tumkur district.

## Education for underprivileged at Arunachal Pradesh

Taking up the issue of education to the underprivileged, Tumkur University has extended its support to Mahabodhi Maithri Mandal of Arunachal Pradesh in providing education to the children of the backward families there.

The Mandal had invited the Department of Studies and Research in Social Work of Tumkur University to establish a non-government organization and carry out educational activities in Namsai, a remote village in Arunachal Pradesh.

A delegation from the Department had visited the village and prepared a vision document of 25 years for the overall development of the village, which comprises the educational plans of the children of the village beginning from primary school to higher education.

Tumkur University has been able to stop the migration of families from Namsai, one of the most neglected villages of Arunachal Pradesh. With the initiative of Tumkur University, the situation has changed there.

### **SCP and TSP Schemes**

Special Component Plan (SCP) and Tribal Sub Plan (TSP), two ambitious programmes of the Government of India, implemented by Tumkur University, has brought a transformation among the future prospects of the students of the Scheduled Castes and Scheduled Tribes pursuing their higher education in various Post Graduate Departments of the University. True to the fundamental vision of the Plan, i.e., economic upliftment of the below poverty line households in the Scheduled Caste groups by an assured flow of financial assistance, the University has initiated a variety of programmes with specific intentions of developing personality and entrepreneur skills among them.

The Government of Karnataka, the nodal agency for the Central schemes, had sanctioned Rs 300 lakh in all to Tumkur University to take up various activities under the scheme. As a step towards realizing the Plan's objective, the University conducted different innovative programmes such as computer training, training for competitive exams, and gave special attention to the development of language skills, establishment of a good library and a full-fledged hostel for the SC students.

Under training programmes for capacity building, for instance, a total of 282 SC/ST students were provided training in basics of computer, communicative English and competitive exams with an expenditure of Rs 2.04 lakh in the current academic year. Moreover, under the skill development programme, workshops and seminars were conducted in topics such as personality and leadership development, team work and team building, goal setting and career guidance, personal effectiveness, globalization & Yoga and

meditation. A total of 486 students benefited from these programmes, for which an amount of Rs 2.10 lakh was spent.

A special mention is to be made here that all the Post-Graduate students who participated in the above-mentioned programmes were not just from the most backward classes of the society, but from such a rural background, who would never have got an opportunity to improve their personality and entrepreneurial skills if they had no such opportunity in the University. The special sessions on communicative English and coaching on competitive exams like those conducted by the KPSC, UPSC and the UGC proved real gifts to the ambitious students from the rural background. The students were undoubtedly talented and gifted but the major drawback in them was nothing but their inability to communicate their ideas to the world in the language it required. The coaching proved to be a great boon in this direction.

For instance, the topics dealt by experts during the leadership and personality development such as secrets of self-esteem and self-confidence, effective leadership: styles and strategies, time management and study habits, public speaking skills, efficient use of information and communication technology, team building for better success, qualities of highly effective people and career opportunities in Public Administration were highly appreciated by the participants.

In addition to these programmes, the SCP Cell purchased reference books worth Rs 96,496 and equipment worth Rs 62,586. In all, Rs 3,73 lakh has been spent under the SCP in 2010-11. Further, the TSP Cell spent Rs 2.93 lakh towards purchasing of books and Rs 62,586 towards purchasing of equipment like computer and printer.

The University has constructed separate hostels for the SC/ST students with a budget of Rs 300 lakh under the SCP/TSP programmes. The full-fledged hostels that have come up on the campus have fulfilled the much awaited demand of the students. The university also intends to provide an additional amount of Rs 200 to the students of SC/ST community every

month, who stay in the hostels. The students are already getting some amount from the Social Welfare Department.

One more special initiative is to provide instrumentation training to the students of SC under the SCP in the forthcoming academic year. The students can simultaneously gain expertise in instrumentation as they pursue their courses in the university which would be of great help to them in future. An exclusive library has been maintained for SC/ST students where books worth Rs. 8 lakh helpful for competitive exams have been provided.

# UGC accords new status to Tumkur University

The new tag helps varsity to get crores of rupees from the commission

**TUMKUR:** An eight-year-long dream of Tumkur University has finally become a reality, with the University Grants Commission (UGC) according the 12 (b) accreditation to the university on Tuesday.

The University was not able to get the UGC grants due to inadequate facilities. Now, the newly accorded status makes it eligible for crores of rupees granted by the commission for various projects.

The grants would help the university in undertaking research activities and promote higher education.

The UGC had earlier denied the accreditation to the university due to lack of basic facilities.

A proposal was submitted last October, following which committees conducted a series of inspections.

The facilities of the University were examined by a team of academicians, that formed the core committee of the UGC team headed by Prof D S Rathod, the retired vice chancellor of Agricultural University in Himachal Pradesh.

Finally, the status was un-

animously approved by a committee comprising Prof C H Ramakrishna from Geetam University, Prof P Pilladoraiah and Prof S C Singh of Kamaraj University, deputy secretary of UGC Regional office Dr N Pakuma.

The campus, science blocks, classrooms, seminar hall, ad-

ministrative department, men's and women's hostels, guest room, parks, received appreciable response, the registrar of the university Shivalingaiah said.

As many as 1,230 students, who are pursuing postgraduation courses in more than 17 colleges affiliated to the univer-

sity and around 30,877 students in 88 composite colleges are all set to benefit from the status.

#### Norms

According to the UGC norms in order to procure 12 (b) accreditation a minimum of six departments in postgraduate

department should operate in the university.

Each department should have one professor along with an assistant professor and three assistant lecturers. Other facilities like hostels and classrooms are also taken into consideration. The members of the committee in their report observed that the University has adequate infrastructure and commended its progress.

The university could achieve the status as it is equipped with a group of efficient and enthusiastic teachers. The teachers have been appointed as per the UGC norms.

#### Benefits

The accreditation will benefit around 88 colleges affiliated to Tumkur University.

This will also enable it to undertake national-level seminars, personality development programmes for staff and higher education for teachers.

It will also enable to procure grants for professors and assistant professors at the university for overseas studies, and for presenting and publishing research papers.

## TU To Expand Entrepreneurship Programme

by Bharath Joshi

**Bangalore:** In the coming months, the Innovation and Entrepreneurship Development Centre (IEDC) of Tumkur University will expand the intake for its entrepreneurial training programme.

Currently, 25 batches of entrepreneurs are being trained. This number is likely to surpass 100 this year.

Speaking to Express, Vice-Chancellor of the S C Sharma said that a decision to this effect was taken in view of the response the programme received. "We

have 25 batches currently, with each batch taking in 30-40 participants. They are workers, vendors, students and even working

**TU V-C S C SHARMA SAID THE UNIVERSITY WAS TRAINING 60 SCHOOL DROPOUTS IN COMPUTER BASICS AND AIMING TO EXPAND THE PROGRAMME TO INCLUDE 600 CHILDREN**

professionals. We are looking at increasing the number of batches to 100 in this academic year," he said.

The Innovation and Entrepreneurship Development Centre was established

in April 2010 with an amount of ₹12,55,000 sanctioned to this Centre.

The Vice-Chancellor said, "The participants in

this programme receive in-depth training on entrepreneurial skills. The fact that we have people from all walks of life participating in this programme is the highlight."

With faculty from Master for Social Work (MSW) and two new experts roped in for this programme, the participants would receive training as per individual needs.

For instance, Sharma said, a vegetable vendor is trained in strategies for setting up shop in the right location. Similarly, a software professional is given training in languages, handling contract orders among others. "There is no fee for this training. Also, the programme is not classroom-based. The objective of IEDC is to help people give jobs and not seek them," he added.

#### Training for School Dropouts

Tumkur University is also looking at expanding its training programme to school dropouts.

The Vice-Chancellor explained, "We have evening classes for the school dropouts. These kids are given computer training by our faculty. As of now, 60 students have enrolled for the programme. We are aiming at including 600 school dropouts this year."

The university has joined hands with a local NGO to train dropouts.

# Tumkur varsity pioneer in fund-raising

## 3-pronged strategy includes accepting donations, equipment and free teaching

Asha Krishnaswamy

**BANGALORE:** Self-financing is the new mantra of fund-starved universities in Karnataka. Not a single university in the State is financially comfortable or has sufficient teaching and non-teaching staff.

The five-year-old Tumkur University is now into raising funds from philanthropists including businessmen to meet its academic needs. The varsity last month received Rs 2.5 crore as donation from hotelier Sadananda Maiya of Bangalore.

Maiya's donation will go into constructing 24 classrooms each with a dimension of 30x50 ft in the University campus in Tumkur City.

University Vice-Chancellor S C Sharma said the donor had specified that the donation should go towards improving infrastructure.

Maiya said he has suggested that Sharma establish a Food Technology Research Centre at the varsity. "Barring the CFTRI, we do not have a good food technology centre," he added.

He has donated Rs six crore for constructing a building for

running PU classes at National College, Jayanagar.

Why is the hotelier's interested in education? "I have been in the business for last four decades. I want to give back something to society," he says.

Since its inception, Tumkur University has received just Rs 5.5 crore from the Government. Sharma wants the university to develop as a research-oriented institution. Instead of depending on the Government or the UGC, Universities should look for self-financing, he suggests.

The University's three-pronged approach to self-reliance is - seeking donations, taking new/used equipment from research organisations and getting experts to teach free of cost.

### Rs 50 lakh assistance

Sharma has been able to get assistance to the tune of Rs 50 lakh from Infosys Foundation - books worth Rs 15 lakh and computer hardware and software worth Rs 35 lakh for teaching languages to rural students.

On Tuesday, the varsity received Rs 35 lakh worth equipment from ISRO for its remote

sensing and geo informatics lab. ISRO has also sanctioned equipment for the University's Physics Centre for Atmospheric Sciences. "We will be getting equipment worth Rs 50 lakh to Rs one crore," the V-C said.

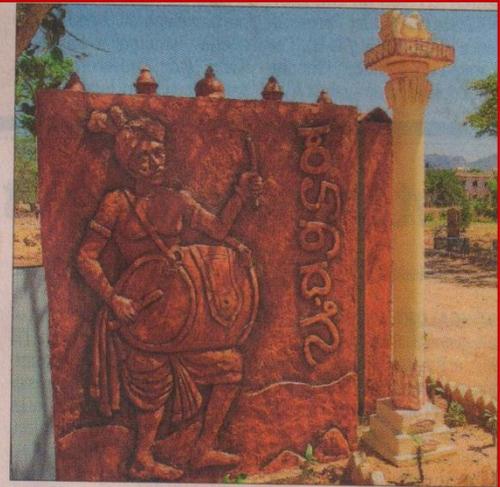

The University has received a sanction letter from the Central Pollution Control Board and the State Government for opening a workstation worth Rs 30 lakh at the Environment Study Centre. "We have sent a proposal to DST to help us in opening a nano research centre. Purvankara builders have been approached to develop a park in the University premises," Sharma said.

Vice-chancellors of some of the other Universities are also in favour of raising funds for academic activities. But none have done it so far.

Dr S Indumati, V-C of six-month-old Davangere University said donors would come forward to help once the University decides to seek help. Karnataka University Vice-Chancellor S K Saidapur said all varsities are facing funds crunch. "All Universities have only 50 per cent of the staff strength because of paucity of funds," he said.

## Art in all forms

# A campus turned cultural hotspot

**Manjunath Goudara**

**TUMKUR:** Tumkur University now has a new look to it. The road from the university campus to the departments are adorned with murals and sculptures that depict different art forms.

There are so many fascinating forms of art that enthrall walkers. People visiting the campus are sure to fall in love with the wide variety of arts exhibited here, say students.

This unique journey is named as "Kalaradhane" or art worship. This exposes visitors

to diverse forms of folk, culture, art, monuments thus depicting diversity in language. A cement plate enscripted with different forms of dance are on display and also equipment used in farming are displayed here.

The view of the 78 inches tall, 38 inches wide and 39.18 inches thick rolling stone mesmerises the viewers. When you move further with the image of the vast stone in your mind the grain threshing stone welcomes you.

The campus also includes monuments telling stories of Tumkur, inscriptions and folk

based art forms. Both sides of the campus road leading to university is full of such amazing art forms.

A lot of time and energy has been spent on getting the campus artistically beautiful.

These diverse forms are the result of constant search in Horatapet, Ballagere, Durgadahalli, Devarayanapatta, Hettenahalli, Urdigere, MN Palya, Karekal Palya in Tumkur, Halli Sarige in Turuvekere and Chindigere in Gubbi taluk.

This university campus not only takes one through the artistic richness of the land;

but also talks about day to day life.

The Kalika Devi statue, known as powerful goddess; and various inscriptions give a picture of the culture of the land.

Rare statues like the Naga devathe carved on stone, kalabhairava statue depicting Lord Shiva, Vaishnava goddess, Lakshmi Narasimha, Veerabhadra, a Shaiva god, Govardhana giridhama of Vaishnava and Bhagavatha culture, two Mashti stones depicting sathi system and self sacrifice,

Jaina Thirthankara and

Nandi statue leaves people spellbound. Some statues describe the real feeling of the poetry. Second Nagavarma's poetry and Da Ra Bendre's "Hakki Haruthide Nodidira" has been expressed beautifully through dancing statues and pictures.

Most universities welcome the people with a well maintained park, a neat building and infrastructure.

But Tumkur University is surely an unique exception. If other universities also take this model as example, students can get information on culture, advise educationists.

# Epigraphical stone finds shelter in Tumkur varsity

**TUMKUR:** This stone has significance in terms of epigraphy. Found in Kanchikere village of Harappanahalli taluk of Bellary district by the Archaeology Department of Tumkur University. It has now been installed and protected by the Department.

This stone has not been recorded in any epigraphical volume. Dating back to 1175 AD, the 46 lines in the stone refer to a grant. It is written in Nadugannada (middle Kannada, 14th to 18th century) which is simple to understand, elegant and effective in reaching the people.

The stone inscription describes that Ponnave, who had built an Ishwara (Shiva) temple has given away land which can yield 110 bushels of paddy for the maintenance of the temple and for the prasada served in the temple.

The inscription explains that Ponnave is the daughter of Goravakonda Vallabharta, who was in the administration of Tribhuvan Malla Pandya, the chieftain (Samantha) of

# Nobel Laureate's Day Out Fruitful for TU

by Devaraj B Hirehalli

**Tumkur:** If you want to become scientists, get involved in sports activities, said Nobel Laureate in Chemistry (2002) Prof Kurt Wuthrich of Scripps Research Institute, California, USA, which is probably the rarest advice given by any scientist.

The hour-long special lecture including pictorial presentation on 'My life as a scientist' at the Tumkur University took the audience on a roller coaster ride.

The passionate sportsman who led a football team at the club level, is also involved in high jump, fishing and skiing. The high jump is good exercise for the mind to improve the mistakes as the repetitive practice will make one perfect. While in football, one can learn how to play as a team and manage a team by bringing the best out of the players, he said.

He showed the picture of a huge fish weighing about

57 kg and over 6-ft length, which he had fished in the sea to the astonishment of the audience. "If you want to achieve big, you want to see big and catch big," he said.

Sports will teach one to accept the defeat and the errors committed are immediately visible, he observed.

On his research on 'Nuclear Magnetic Resonance (NMR) spectroscopy' which fetched him the Nobel Prize, he explained its applications in magnetic resonance imaging and in various fields. "As

my research impacted the lifestyle of humans for their betterment, as a scientist I could not have asked for more," he said.

# Growth Spurt for Tumkur University

*35 development projects are on  
the verge of completion*

**The Dr V S Acharya Memorial Block of Tumkur University**

by Devaraj B Hirehalli

**Tumkur:** Making use of limited space in its small campus, Tumkur University, formerly Government Arts and Science (GAS) College, has been growing steadily in a short span.

As many as 35 development projects, including the construction of a research centre and renovation of some old buildings, at an estimated cost of ₹24.78 crore, are on the verge of completion.

All this was possible due to the acumen of Vice-Chancellor Dr S C Sharma, who set aside the demand for about 300 acres to set up a new campus and focused on implementing the projects on approximately 50 acres already in the varsity's possession.

It was his predecessor Dr O Anantharamaiah's initiative, amidst protests by students, to transform the GAS colleges as varsity's constituent colleges that came in handy, since by virtue of it the colleges' campus became the varsity's.

Bothering less about the government's lack of initiative to sanction the land, the V-C's strategy to make use of the available space worked out.

## MEMORIAL FOR DR V S ACHARYA

The varsity has dedicated one of its blocks, which houses the library and information science department, to former higher education minister late Dr V S Acharya.

He pooled funds from philanthropists and the government. As a result, the construction of the annexe building to the science college was completed at a cost of ₹2.78 crore while a research centre is on the verge of completion at a cost of

# Conserve fertile land : Nobel Laureate

## Prof Richard Ernst conferred honorary doctorate at the convocation of Tumkur varsity

**TUMKUR:** Nobel Laureate scientist Prof Richard Ernst has expressed concern on "over exploitation of fertile land" in India.

"It is an ominous sign for the future. The present generation shoulders the responsibility to conserve fertility of the soil for the coming generations. All available natural resources should be exploited minimally under all circumstances for sustenance of life on planet earth," Prof Ernst said here on Friday. He was delivering a lecture at the fifth convocation of the Tumkur University.

Prof Ernst said the use of fertile land to grow non-food crops should be stopped and all sorts of water conservation methods should be adopted. Curbs should be imposed on increasing consumption of crude oil. Ernst said the terminology, "sustainable development" is being used without realising the limitations the concept imposes on exploitation of natural resources. The scientist called for curbing all such processes which contribute for global warming and climate change. He said India needs to put a check on its burgeoning population.

**GLOBAL CONCERNS:** Nobel laureate Prof Richard Ernst was conferred honorary doctorate at the fifth convocation of Tumkur University on Friday. Governor H R Bhardwaj and vice-chancellor Dr S C Sharma are seen. DH PHOTO

Prof Ernst noted that some radical parties have been demanding unbridled sovereignty for their countries thus disturbing international relations, and leading to wars, sometimes.

Referring to the present system of education, the Nobel Laureate said children need to be imparted education which teaches them to respect people and civilisations of other countries.

Ernst opined that education is not a tool to amass personal wealth. "It is false that intelligence makes one a scientist. It is the conduct of a person that makes

him or her a scientist." Lamenting that the education system has been laying more focus on skills and technology, the scientist lamented that moral values have been fast disappearing from the school curriculum.

He said a student can acquire knowledge on the external world through internet and wikipedia while models are required to show the path for children.

He said curiosity forms the bedrock of knowledge and those without curiosity cannot be scientists. Prof Ernst called upon students to shoulder the responsibility of taking the nation on the path of progress. "We should follow the words of Gandhi in initiating changes. We should not while away by cursing politicians," he noted.

Prof Ernst was conferred honorary doctorate on the occasion. Honorary doctorate was conferred on nine while DL it was granted to two persons. Chancellor H R Bhardwaj, vice-chancellor Dr N C Sharma, Siddaganga mutt seen Dr Shivakumara Swamiji, Higher Education Minister Dr V S Acharya and others were present.

# ಇತಿಹಾಸದ 'ವರ್ತಮಾನ'

1) ಭಾವಣಿ ರಹಿತ ದೇಗುಲ. 2) ಹರಿಹರ ಶಿಲ್ಪ, 3) ಲಲಾಟ, 4) ಸಾರ್ವಜನಿಕರಿಗೆ ಬಯಲು ಸಂಗ್ರಹಾಲಯದಲ್ಲಿ ಇತಿಹಾಸದ ಪಾಠ ಹೇಳುತ್ತಿರುವ ಇತಿಹಾಸ ವಿಭಾಗದ ಪ್ರಾಧ್ಯಾಪಕ ಕೊಟ್ಟೇಲ್ ಮತ್ತು ಮುಖ್ಯಸ್ಥ ಮೂರ್ತಿ. 5) ಇತಿಹಾಸ ನೆನಪು ಮಾಡಿಕೊಡುವ ಮಡಿಕೆ ಚೂರುಗಳು.

ಇತಿಹಾಸದ ಪಾಠ ಹೇಳುವ ವಿಧಾನ ಬದಲಾಗಬೇಕು ಎನ್ನುವ ಒಹುಕಾಲದ ಚರ್ಚೆಗೆ ಉತ್ತರ ಕಂಡುಕೊಳ್ಳುವ ಕಿರು ಪ್ರಯತ್ನ ತುಮಕೂರು ವಿಶ್ವವಿದ್ಯಾಲಯದಲ್ಲಿ ಆರಂಭವಾಗಿದೆ. ಶಿಲಾಯುಗ ಕಾಲದ ಆಯುಧ, ಆಡುಗೆ, ಬೇಸಾಯದ ಪರಿಕರ, ಮದ್ಯಕಾಲೀನ ಭಾರತದ ಶಿಲ್ಪ ವೈಭವ, ಕಲಾ ಇತಿಹಾಸ ಸಾರಿ ಹೇಳುವ ಸಂಗೀತ ವಾದ್ಯ, ರಾಜ ಮಹಾರಾಜರ ಆಸ್ಥಾನ ಬಿಂಬಿಸುವ ಕಲಾಕೃತಿ, ಪುರಾತನ ಕಾಲದ ಇಟ್ಟಿಗೆ... ಸೇರಿದಂತೆ ಹಲ ಪಾರೋಪಕರಣಗಳನ್ನು ವಿ.ವಿ. ಇತಿಹಾಸ ವಿಭಾಗ ಕಲೆ ಹಾಕಿದೆ. ಮಾತ್ರವಲ್ಲ ಪಾಠದ ಸಂದರ್ಭದಲ್ಲಿ ವ್ಯವಸ್ಥಿತವಾಗಿ ಒಳಸುತ್ತಿದೆ.

ಇತಿಹಾಸ ವಿಭಾಗದ ಈ ಪ್ರಯತ್ನಕ್ಕೆ ಗರಿಯಿಟ್ಟಂತೆ ಇದೀಗ ಬಯಲು ವಸ್ತುಸಂಗ್ರಹಾಲಯ ಸ್ಥಾಪನೆಯಾಗಿದೆ. ಹಾಸನ ಜಿಲ್ಲೆ ಅರಸೀಕೆರೆ ತಾಲ್ಲೂಕಿನ ಬಾಣಾವರದಲ್ಲಿ ಈಚೆಗೆ ಕುಸಿದ ಹೊಯ್ಸಳರ ಕಾಲದ ಬಾಣೇಶ್ವರ ಮತ್ತು ಚನ್ನಕೇಶವ ದೇಗುಲದ ಶಿಲ್ಪ ಭಂಡಾರವನ್ನು ವಿ.ವಿ. ಆವರಣದಲ್ಲಿ ಮರು ಪ್ರತಿಷ್ಠಾಪಿಸಲಾಗಿದೆ.

ಪ್ರತಿಷ್ಠಾಪಿಸಲಾಗಿದೆ. ಪ್ರತಿಯೊಂದು ಶಿಲ್ಪದ ಕೆಳಗೆ ವಿವರಗಳಿವೆ. ನರಸಿಂಹ ಶಿಲ್ಪ ಹೆಚ್ಚಿನ ಸಂಖ್ಯೆಯಲ್ಲಿವೆ. ಶಿವ, ವಿಷ್ಣುವಿನ ಅಭೇದ ಪರಿಕಲ್ಪನೆ ಸಾರಿ ಹೇಳುವ ಅಪರೂಪದ 'ಹರಿಹರ' ಶಿಲ್ಪ ಜನರನ್ನು ಸೆಳೆಯುತ್ತಿದೆ.

ಧಾರವಾಡ ವಿಶ್ವವಿದ್ಯಾಲಯ ಆವರಣದಲ್ಲಿ ಪುರಾತತ್ವಶಾಸ್ತ್ರಕ್ಕೆ ಸಂಬಂಧಿಸಿದ ಒಳಾಂಗಣ ವಸ್ತು ಸಂಗ್ರಹಾಲಯ ಹೊರತು ಪಡಿಸಿದರ ರಾಜ್ಯದ ಯಾವುದೇ ವಿಶ್ವವಿದ್ಯಾಲಯದಲ್ಲಿ ಇತಿಹಾಸಕ್ಕೆ ಸಂಬಂಧಿಸಿದ ವಸ್ತು ಸಂಗ್ರಹಾಲಯವಿಲ್ಲ. ಈ ನಿಟ್ಟಿನಲ್ಲಿ ಇದು ಗಮನಾರ್ಹ ಪ್ರಯತ್ನ.

'ಇತಿಹಾಸ, ಪುರಾತತ್ವಶಾಸ್ತ್ರ ಬೋಧಿಸುವ ಸಂದರ್ಭದಲ್ಲಿ ಶಾಸನಗಳು, ದೇಗುಲಗಳೇ ಪ್ರಮುಖ ಆಕರಗಳಾಗಿ ಒಳಕೆಯಾಗುತ್ತವೆ. ಶಾಸನಗಳ ಪಡಿಯೆತ್ತು ತೆಗೆಯುವ ವಿಧಾನ, ದೇಗುಲ ಶಿಲ್ಪಗಳ ವಿನ್ಯಾಸ, ಕುಸುರಿಯಿಂದ ಇತಿಹಾಸದ ಎಳೆ ಹಿಡಿಯುವ ಸಾಧ್ಯತೆ ವಿದ್ಯಾರ್ಥಿಗಳಿಗೆ ತಿಳಿಸಿಕೊಡಲು ಬಯಲು ವಸ್ತು ಸಂಗ್ರಹಾಲಯ ನೆರವಾಗುತ್ತದೆ. ವಿದ್ಯಾರ್ಥಿಗಳಿಗೆ ಮಾತ್ರವಲ್ಲದೆ ವಿಭಾಗಕ್ಕೆ ಭೇಟಿ ನೀಡುವ ಆಸಕ್ತ ಸಾರ್ವಜನಿಕರಿಗೂ ಉಚಿತ ವಿವರಣೆ ಲಭ್ಯ' ಎನ್ನುತ್ತಾರೆ ವಿಭಾಗದ ಮುಖ್ಯಸ್ಥರಾದ ಯು.ಎಸ್.ಮೂರ್ತಿ, ಪ್ರಾಧ್ಯಾಪಕ ಎಂ.ಕೊಟ್ಟೇಲ್.

ತುಮಕೂರು ವಿಶ್ವವಿದ್ಯಾಲಯ ಪ್ರಾರಂಭವಾಗಿ 6 ವರ್ಷ ಕಳೆಯುತ್ತಿದೆ. ಮೊದಲ 4 ವರ್ಷಗಳ ಕಾಲ ವಿಶ್ವವಿದ್ಯಾಲಯಕ್ಕೊಂದು ಸುಸಜ್ಜಿತ ಕ್ಯಾಂಪಸ್ ನಿರ್ಮಿಸಲು ಜಾಗ ಬೇಕು ಎಂದು ಭಗೀರಥ ಪ್ರಯತ್ನ ನಡೆಸಿದರೂ ಸಹ ಅಧಿಕಾರಸ್ಥ ರಾಜಕಾರಣಿಗಳ ಅಸಹಕಾರ, ಪರಿಸರವಾದಿಗಳು ಎಚ್ಚಿಸಿದ ವಿವಾದ, ಅರಣ್ಯ ಇಲಾಖೆ ಅಧಿಕಾರಿಗಳ ಅಸಹಕಾರ ಕಿರಿಕಿರಿ ನಡುವೆ ಒಂದು ಸುಸಜ್ಜಿತ ಕ್ಯಾಂಪಸ್ ನಿರ್ಮಿಸಿಕೊಳ್ಳಲು ಸಾಧ್ಯವಾಗಿರಲಿಲ್ಲ.

2ನೇ ಅವಧಿಗೆ ಕುಲಪತಿಯಾಗಿ ನೇಮಕಗೊಂಡಿರುವ ಡಾ. ಎಸ್.ಸಿ. ಶರ್ಮಾ ವಿಶ್ವವಿದ್ಯಾಲಯಕ್ಕೆ ಸಂಯೋಜಿತ ಕಾಲೇಜುಗಳಾದ ಸರ್ಕಾರಿ ವಿಜ್ಞಾನ ಮತ್ತು ಕಲಾ ಪದವಿ ಕಾಲೇಜುಗಳ ಕಟ್ಟಡ

ಮತ್ತು ಮೈದಾನವನ್ನು ಬಳಸಿಕೊಂಡು ವಿಶ್ವವಿದ್ಯಾಲಯಕ್ಕೆ ಸುಸಜ್ಜಿತವಾದ ಕ್ಯಾಂಪಸ್ ನಿರ್ಮಿಸಲು ರೂಪರೇಷೆಗಳ ಯೋಜನೆಯನ್ನು ರೂಪಿಸಿದರು.

ಸುಮಾರು 5 ದಶಕಗಳಿಗೂ ಹೆಚ್ಚು ಕಾಲದ ಚರಿತ್ರೆ ಹೊಂದಿರುವ ಸರ್ಕಾರಿ ವಿಜ್ಞಾನ ಮತ್ತು ಕಲಾ ಪದವಿ ಕಾಲೇಜುಗಳ ಮೈದಾನದಲ್ಲಿ ಗಿಡಮರಗಳಿದ್ದರೂ ಸಹ ಸರಿಯಾದ ನಿರ್ವಹಣೆ ಇರಲಿಲ್ಲ. ವಿಶ್ವವಿದ್ಯಾಲಯದ ಆಡಳಿತ ಕಚೇರಿ ಈ ಕಾಲೇಜುಗಳ ಕಟ್ಟಡಕ್ಕೆ ಸ್ಥಳಾಂತರಗೊಂಡ ನಂತರ ಸ್ನಾತಕ ಮತ್ತು ಸ್ನಾತಕೋತ್ತರ ಪದವಿ ವಿದ್ಯಾರ್ಥಿಗಳಿಗೆ ಆಹ್ವಾನದ ಕರ ವಾತಾವರಣ ಇರಲಿಲ್ಲ. ಇದನ್ನು ಮನಗಂಡ ಬ್ಯಾಚುಲರ್ ಆಫ್ ಫೈನ್ ಆರ್ಟ್ಸ್ ವಿದ್ಯಾರ್ಥಿಗಳು ಮತ್ತು ಶಿಕ್ಷಕರು ಕುಲಪತಿ ಡಾ. ಎಸ್.ಸಿ. ಶರ್ಮಾ ಮಾರ್ಗದರ್ಶನದ ಮೇರೆಗೆ ಇಡೀ ವಿಶ್ವವಿದ್ಯಾಲಯದ ಕ್ಯಾಂಪಸ್‌ಗೊಂದು ಸುಂದರ ವಾತಾವರಣ ಕಲ್ಪಿಸುವ ಪ್ರಯತ್ನ ನಡೆಸಿದ್ದಾರೆ. ಕ್ಯಾಂಪಸ್ ಆವರಣದಲ್ಲಿ ಅನುಪಯುಕ್ತವಾಗಿ ಬಿದ್ದಿದ್ದ ಕಲ್ಲು, ಚಪ್ಪಡಿ, ಇಟ್ಟಿಗೆ ಇತರೆ ವಸ್ತುಗಳನ್ನು ಬಳಸಿಕೊಂಡು

ಬಿಎಫ್‌ಎ ವಿಭಾಗದ ಅತಿಥಿ ಉಪನ್ಯಾಸಕಿ ಎಂ.ಜಿ. ದೀಪಿಕಾ ನೇತೃತ್ವದಲ್ಲಿ ವಿದ್ಯಾರ್ಥಿಗಳು ಆಕರ್ಷಕ ಹಾಗೂ ವೈವಿಧ್ಯಮಯ ಕಲಾ ಕೃತಿಗಳನ್ನು ತಯಾರಿಸಿ, ನೋಡುಗರ ಕಣ್ಮನ ಸೆಳೆಯುವುದರೊಂದಿಗೆ ಹೃದಯ ತಟ್ಟುವ ರೀತಿಯಲ್ಲಿ ಪ್ರದರ್ಶನಕ್ಕೆ ಡಲಾಗಿದೆ.

ಅಡಿಕೆ, ತೆಂಗು ಬೆಳೆಗೆ ಮಾರಕವಾಗುವ ಬಸವನಹುಳುಗಳನ್ನು ವಕ್ರ ಗೋಡೆಯಲ್ಲಿ ತಯಾರಿಸಲಾಗಿದೆ. ವಿಶ್ವವಿದ್ಯಾಲಯದ ಕಚೇರಿ ಎದುರು ಬೆಳಕು ಮತ್ತು ಕತ್ತಲೆಯನ್ನು ಬಿಂಬಿಸುವ ಸೂರ್ಯಚಂದ್ರರ ಚಿತ್ರಗಳು, ಅವುಗಳ ಪಕ್ಕದಲ್ಲಿ ಜಾನಪದ ವೈವಿಧ್ಯತೆಯನ್ನು ನೆನಪಿಗೆ ತರುವ ನಂದಿ ಹಾಗೂ ಕುದುರೆ ಆಕೃತಿಗಳನ್ನು ಕೆತ್ತಲಾಗಿದೆ. ಸರಸ್ವತಿ ಕೇಂದ್ರವಾಗಿರುವ ಈ ತಾಣದಲ್ಲಿ ಶಿಕ್ಷಣಕ್ಕೆ ಒತ್ತು ನೀಡುವುದನ್ನು ಬಿಂಬಿಸುವಲ್ಲಿ ಲೇಖನಿಯನ್ನು ಕಲ್ಲಿನಿಂದ ಕೆತ್ತಲಾಗಿದೆ. ಜೊತೆಗೆ ಸಾಂಪ್ರದಾಯಿಕ ಶೈಲಿಯಲ್ಲಿ ಮಹಿಳೆ ಭಾವಚಿತ್ರ, ಮೈಸೂರಿನ ದಸರಾ ಜಂಬೂಸವಾರಿ ಸೀಮೆಂಟ್‌ನಿಂದ ತಯಾರಿಸಿರುವ ದೃಶ್ಯಗಳು ಮನಮೋಹಕ.

ಕಲ್ಲು, ಗಾಜು, ಟೈಲ್‌ಗಳ ಮಿಶ್ರಣದಿಂದ ವಿಜ್ಞಾನದ ಆವಿಷ್ಕಾರಗಳನ್ನು ಬಿಂಬಿಸುವ ಚಿತ್ರಗಳನ್ನು ಗಾರೆಯಿಂದ ಗಟ್ಟಿಮುಟ್ಟಾಗಿ ನಿರ್ಮಿಸಲಾಗಿದೆ. ಇದರೊಂದಿಗೆ ಕಲ್ಲಿನ ವೀಣೆ ಕಲಾಕಾರರ ಸೃಜನಶೀಲತೆಗೆ ಸಾಕ್ಷಿಯಾದರೆ ಸಾಂಸ್ಕೃತಿಕ ವಾತಾವರಣವನ್ನು ನಿರ್ಮಿಸುವಲ್ಲಿ ಇಲ್ಲೊಂದು ಕಲಾಗ್ರಾಮವನ್ನು ನಿರ್ಮಾಣ ಮಾಡುವ ಉಮೇದು ವಿದ್ಯಾರ್ಥಿಗಳದ್ದು. ಸ್ಥಳೀಯವಾಗಿ ದೊರೆಯುವ ವಸ್ತುಗಳನ್ನು ಬಳಸಿಕೊಂಡು ಯಾವ ರೀತಿ ಕಲಾತ್ಮಕ ವಾತಾವರಣ ನಿರ್ಮಿಸಬಹುದು ಎಂಬುದಕ್ಕೆ ಮಾದರಿಯಾಗಿದೆ.

ಕೇವಲ ಐದಾರು ದಿನಗಳಲ್ಲಿ ಉಪನ್ಯಾಸಕರು, ವಿದ್ಯಾರ್ಥಿಗಳು ಶ್ರಮಪಟ್ಟು ತಯಾರಿಸಿರುವ ಕಲಾಕೃತಿಗಳು ವಾತಾವರಣಕ್ಕೆ ಮೆರಗು ತರುವಲ್ಲಿ ಕುಲಪತಿ ಡಾ. ಎಸ್.ಸಿ. ಶರ್ಮಾ ಪ್ರೋತ್ಸಾಹ ನೀಡುವ ಮೂಲಕ ಟೀಕಾಕಾರರಿಗೆ ತಮ್ಮ ನಿಲುವು ಏನೆಂಬುದನ್ನು ಸ್ಪಷ್ಟಪಡಿಸಿದ್ದಾರೆ.

# ತುಮಕೂರು ವಿವಿ ಯುಜಿಸಿ ಮಾನ್ಯತೆ ಹಾದಿ ಸುಗಮ

**ಬೆಂಗಳೂರು:** ಆರಂಭವಾದ 7 ವರ್ಷಗಳ ನಂತರ ಯುಜಿಸಿ ಮಾನ್ಯತೆ ಪಡೆಯಲು ತುಮಕೂರು ವಿಶ್ವವಿದ್ಯಾಲಯಕ್ಕೆ ಅಡ್ಡಿಗಳು ನಿವಾರಣೆಯಾಗಿವೆ. ಯುಜಿಸಿ ಮಾನ್ಯತೆ ದೊರೆತಲ್ಲಿ ವಿಶ್ವವಿದ್ಯಾಲಯದ ಅಭಿವೃದ್ಧಿ ಬುರುಕುಗೊಳ್ಳಲು ಸಹಕಾರಿಯಾಗಲಿದೆ. ಪ್ರಾಧ್ಯಾಪಕರ ಮತ್ತು ವಿಭಾಗ ಮುಖ್ಯಸ್ಥರ ನೇಮಕಕ್ಕೆ ಸಂಬಂಧಿಸಿದಂತೆ ಪ್ರಕರಣವೊಂದು ನ್ಯಾಯಾಲಯದಲ್ಲಿದೆ. ಈ ಕಾರಣದಿಂದ ಪ್ರಾಧ್ಯಾಪಕರ ನೇಮಕ ಸಾಧ್ಯವಾಗಿರಲಿಲ್ಲ. ಯುಜಿಸಿ ನಿಯಮಗಳಿಗೆ ಅನುಗುಣವಾದ ಅರ್ಹತೆ ಹೊಂದಿರುವ ಪ್ರಾಧ್ಯಾಪಕರ ನೇಮಕವಾಗದೆ ಇರುವುದು ಯುಜಿಸಿ ಮಾನ್ಯತೆ ಸಿಗದಿರಲು ಕಾರಣವಾಗಿತ್ತು.

ಈ ಪ್ರಕರಣಕ್ಕೆ ಸಂಬಂಧಿಸಿದಂತೆ 2010ರ ಮೇ ತಿಂಗಳಲ್ಲಿ ವಿಶ್ವವಿದ್ಯಾಲಯ ನಡೆಸಿರುವ ಸಹ ಪ್ರಾಧ್ಯಾಪಕರ ಮತ್ತು ಪ್ರಾಧ್ಯಾಪಕರ ನೇಮಕ ಸರಿಯಾಗಿದೆ ಎಂದು ಹೈಕೋರ್ಟ್ ಅ.10ರಂದು ತೀರ್ಪು ನೀಡಿದೆ. ಪರಿಣಾಮವಾಗಿ ನೇಮಕಗೊಂಡ ಸಹ ಪ್ರಾಧ್ಯಾಪಕರ ಮತ್ತು ಪ್ರಾಧ್ಯಾಪಕರು (84 ಮಂದಿ) ಕರ್ತವ್ಯಕ್ಕೆ ಹಾಜರಾಗಲು ಅಡ್ಡಿ ಯಾಗುತ್ತಿತ್ತು. ಹೈಕೋರ್ಟ್ ತೀರ್ಪಿನಿಂದಾಗಿ ನೇಮಕ ಗೊಂಡಿದ್ದ ಸಾಕಷ್ಟು ಪ್ರಾಧ್ಯಾಪಕರು ತುಮಕೂರು ವಿಶ್ವವಿದ್ಯಾಲಯ ಸೇರಿಕೊಂಡಿದ್ದಾರೆ. ವಿಶ್ವವಿದ್ಯಾಲಯಕ್ಕೆ ಯುಜಿಸಿಯ 12(ಬಿ) ಮಾನ್ಯತೆ ಸಿಗದೆ ಅಭಿವೃದ್ಧಿ ಕಾರ್ಯಕ್ಕೆ ಯಾವುದೇ ಅನುದಾನ ಸಿಗದು. ಇದರಿಂದಾಗಿ ವಿಶ್ವವಿದ್ಯಾಲಯ ಆರಂಭವಾಗಿ 7 ವರ್ಷ ಕಳೆದರೂ ಮೂಲಭೂತ ಸೌಕರ್ಯ ಕೊರತೆ ಕಾಣುತ್ತಿತ್ತು.

2 ವರ್ಷ ಹಿಂದಿನವರೆಗೂ ತುಮಕೂರಿನ ಅಂಬೇಡ್ಕರ್ ಭವನದಲ್ಲಿ ವಿಶ್ವವಿದ್ಯಾಲಯ ನಡೆ

ಯುತ್ತಿತ್ತು. ಅದರ ನಂತರ ಸರ್ಕಾರಿ ಕಾಲೇಜನ್ನು ವಿಶ್ವವಿದ್ಯಾಲಯವೇ ತೆಗೆದುಕೊಂಡು, ಅದರ ಆವರಣದಲ್ಲಿ ವಿಶ್ವವಿದ್ಯಾಲಯ ಕಚೇರಿ ಕಾರ್ಯಾರಂಭ ಮಾಡಿತು. 27 ಹೊಸ ಕಟ್ಟಡಗಳ ನಿರ್ಮಾಣ ಕಾರ್ಯ ಪ್ರಗತಿಯಲ್ಲಿದೆ. ಯುಜಿಸಿ ಅನುದಾನ ಇಲ್ಲದೆಯೇ ಸಂಪನ್ಮೂಲಗಳನ್ನು ಕ್ರೋಢೀಕರಿಸಿ ಕೆಲಸ ಮಾಡುತ್ತಿದ್ದ ವಿಶ್ವವಿದ್ಯಾಲಯಕ್ಕೆ, ಯುಜಿಸಿ ಮಾನ್ಯತೆ ದೊರೆತರೆ ಅಭಿವೃದ್ಧಿ ಕಾರ್ಯಕ್ಕೆ ವೇಗ ದೊರೆಯಲಿದೆ.

ಹಲವು ಕೊರತೆಗಳ ನಡುವೆಯೂ ರಾಜ್ಯ ಸರ್ಕಾರ 2009ರಲ್ಲಿ ಭಾಷಾಭಿವೃದ್ಧಿ ಯೋಜನೆಯಲ್ಲಿ 7 ವಿಶ್ವವಿದ್ಯಾಲಯಗಳಿಗೆ ತಲಾ 2 ಕೋಟಿ ರು. ಬಿಡುಗಡೆ ಮಾಡಿತ್ತು. ಇದರಲ್ಲಿ ಮಂಜೂರಾಗಿದ್ದ 1 ಕೋಟಿ ರು.ಗಳನ್ನು 40 ಪುಸ್ತಕ ಪ್ರಕಟಣೆಗೆ ಹಾಗೂ ಸಂಶೋಧನೆಯ ಮೂಲಕ ಕ್ರಿಯಾಯೋಜನೆಗೆ ಬಳಸಿದ ಏಕೈಕ ವಿಶ್ವವಿದ್ಯಾಲಯ ಎಂಬ ಹೆಗ್ಗಳಿಕೆ ಗಳಿಸಿದ್ದು ವಿಶೇಷ.

### ಅಭಿವೃದ್ಧಿ ಪಥ

# ಅಭಿವೃದ್ಧಿಗಾಗಿ ಗೆಜ್ಜೆ ಕಟ್ಟಿದ ವಿವಿ, ಸಾಧನೆ ತಿಖರದತ್ತ

ಹೊಸ ಭವಿಷ್ಯವನ್ನು ಬರೆಯುವಲ್ಲಿ ಸಫಲರಾದರು. ಇಷ್ಟಲ್ಲಾ ಅಭಿವೃದ್ಧಿ ಪಥಕ್ಕಾಗಿ ಶ್ರಮಿಸುತ್ತಿದ್ದರೂ ಕೂಡ ಮೂಲ ಸೌಕರ್ಯ ಒದಗಿಸುವುದು ಒಂದು ದೊಡ್ಡ ಸವಾಲೇ ಆಗಿತ್ತು. ವಿವಿ ಯುಜಿಸಿಯ 12(ಬಿ) ಮಾನ್ಯತೆ ಇಲ್ಲವಾಗಿದ್ದರಿಂದ ಕೇಂದ್ರದ ಅನುದಾನ ಪಡೆಯುವುದೇ ಸಾಧ್ಯವೇ ಇರಲಿಲ್ಲ. ಇದರಿಂದ ಧೈರ್ಯಶೀಲರಾದ ಡಾ. ಶರ್ಮಾ ಅವರು ದಾನಿಗಳ ಮನವೊಲಿಸಿ ವಿಶ್ವವಿದ್ಯಾನಿಲಯ ಕಟ್ಟಲು ಆಗುತ್ತೇವೆಂದು ಹಣ ಒಟ್ಟುಗೂಡಿಸಿ ಸೂತನ ಕಟ್ಟಡಗಳನ್ನು ನಿರ್ಮಾಣ ಮಾಡಲು ಮುಂದಾದರು.

ಡಾನಿಗಳ ನೆರವು: ತುಮಕೂರು ವಿಶ್ವವಿದ್ಯಾನಿಲಯಕ್ಕೆ ಕೊಟ್ಟ ಹಣ ಅತ್ಯಂತ ಸಮರ್ಪಕವಾಗಿ ಬಳಕೆಯಾಗುತ್ತದೆ ಎಂದು ಅರ್ಥ ಮಾಡಿಕೊಂಡ ದಾನಿಗಳು ಹಾಗೂ ಸಂಘಸಂಸ್ಥೆಗಳು ತುಂಬುಮನಸ್ಸಿನಿಂದ ತಮ್ಮ ಕೊಡುಗೆ ನೀಡಿದರು. ಕೇವಲ ಮೂರು ವರ್ಷದ ಅವಧಿಯಲ್ಲಿ ಸುಮಾರು 30 ಕೋಟಿ ವ್ಯಕ್ತದಲ್ಲಿ 40ಕ್ಕೂ ಹೆಚ್ಚು ಯೋಜನೆಗಳು ಸಾಕಾರಗೊಂಡವು. ಅಕ್ಕಿಪೂಡುವಂತೆ ವಿಶ್ವವಿದ್ಯಾನಿಲಯದ ಸಸ್ತುವಳ ನಡೆಸಲು ಆರೋಗ್ಯಕರವೆಂದು ಕೆವಲ ಮೂರ್ನಾಲ್ಕು ವರ್ಷಗಳ ಹಿಂದೆ ಬದಲಾಗಿದ್ದರೂ ಹಣವು ಸುಗಮವಾಗಿ ಸಾಕಾರಗೊಂಡು ಬೇಕಾದಷ್ಟು ಅಭಿವೃದ್ಧಿ ಸಾಧಿಸಲು ಸಾಧ್ಯವಾಯಿತೇ ಎಂದು ಘನತೆವತ್ತಿ ರಾಜ್ಯಪಾಲರಾದಿಯಾಗಿ ನಾಡಿನ ಹತ್ತುಪಲವು ಗಣ್ಯರು ಅಭಿವೃದ್ಧಿ ವ್ಯಕ್ತಪಡಿಸಿದರು.

ಸಂಶೋಧನೆ: ವಿವಿ ತನ್ನ ಬೋಧಕ ವರ್ಗ ಸದಾ ಅಧ್ಯಯನ ಹಾಗೂ ಸಂಶೋಧನೆಯಲ್ಲಿ ತೊಡಗಿಕೊಳ್ಳಲು ಎಲ್ಲ ಬಗೆಯ ಪ್ರೋತ್ಸಾಹ ನೀಡಿದೆ. ಪ್ರಾಧ್ಯಾಪಕರು ಈಗಾಗಲೇ 250ಕ್ಕೂ ಹೆಚ್ಚು ಸಂಶೋಧನ ಪ್ರಸ್ತಾವನೆಯನ್ನು ದೇಶದ ವಿವಿಧ ಸಂಸ್ಥೆಗಳಿಗೆ ಸಲ್ಲಿಸಿದ್ದಾರೆ. 41 ಸಂಶೋಧನಾ ಯೋಜನೆಗಳಿಗೆ 4 ಕೋಟಿ ರೂ. ಅನುದಾನ ಮಂಜೂರಾಗಿದೆ. ಪ್ರತಿಷ್ಠಿತ ಸಂಸ್ಥೆಗಳಾದ ಯುಜಿಸಿ, ಡಿಆರ್‌ಡಿಒ, ಡಿಎಸ್‌ಟಿ, ಐಎಸ್‌ಎಲ್, ಎಸ್‌ಆರ್, ಐಎಸ್‌ಎಲ್‌ಆರ್, ಸಿಎಸ್‌ಐಆರ್ ಮೊದಲಾದವು ವಿವಿ ಸಂಶೋಧನ ಪ್ರಸ್ತಾವನೆಗಳಿಗೆ ಅನುದಾನ ನೀಡುವಂತೆ. ಅಂತಾ ರಾಷ್ಟ್ರೀಯ ಮಟ್ಟದ ನಿರುತ್ತರಾಲಿಕೆಯಲ್ಲಿ ಇಲ್ಲಿನ ಪ್ರಾಧ್ಯಾಪಕರು ನೂರಾರು ಸಂಶೋಧನ ಪ್ರಬಂಧಗಳನ್ನು ಪ್ರಕಟಿಸಿದ್ದಾರೆ.

ವಿವಿ 2009ರ ಯುಜಿಸಿ ನಿಲಯಮವನ್ನು ಸಂಪೂರ್ಣವಾಗಿ ಅಳವಡಿಸಿಕೊಂಡು ಓಎಸ್.ಡಿ. ಕಾರ್ಯಕ್ರಮ ರೂಪಿಸಿದೆ. 83 ಸಂಶೋಧನಾಧಿಗಳು ತಮ್ಮ ಓಎಸ್.ಡಿ. ಪ್ರವರ್ಧಕ ಕೋರ್ಸ್ ವರ್ಗವನ್ನು ಯಶಸ್ವಿಯಾಗಿ ಪೂರ್ಣಗೊಳಿಸಿದ್ದಾರೆ. ಅಲ್ಲದೆ, ಹೊರದಾಗಿ 290 ಮಂದಿ ಸಂಶೋಧನಾಧಿಗಳು ಓಎಸ್.ಡಿ. ಕೋರ್ಸ್‌ನಲ್ಲಿ ನಡೆಸುತ್ತಿದ್ದಾರೆ. 12 ಶಿಷ್ಯಗಳಿಗೆ 110 ಮಂದಿ ಸಂಶೋಧನ ಮಾರ್ಗದರ್ಶಕರಾಗಿ ವಿವಿ ಮಾನ್ಯತೆ ನೀಡಿದೆ.

ತುಮಕೂರು ವಿಶ್ವವಿದ್ಯಾಲಯ ಅಕರ್ಷಕ ಮುಖ್ಯದ್ವಾರ.

## ಅಭಿವೃದ್ಧಿಗಾಗಿ ತುಡಿತ

ತುಮಕೂರು ವಿವಿಗೆ ಕುಲಪತಿಯಾಗಿ ಬಂದಾಗ ಹಲವು ಸಮಸ್ಯೆಗಳು ಎದುರಾಗಿದ್ದವು. ಆದರೆ ಇಲ್ಲಿನ ಜನ ತುಂಬಾ ಒಳ್ಳೆಯವರು. ಅಭಿವೃದ್ಧಿ ಕೆಲಸಕ್ಕೆ ಎಲ್ಲರೂ ಕೈಜೋಡಿಸಿದರು. ಇದು ಎಲ್ಲರ ಸಹಕಾರದಿಂದ ವಿವಿ ಅಭಿವೃದ್ಧಿ ಹೊಂದಿದೆ. ಸಚಿವರಾದ ಎನ್. ಶಿವಣ್ಣ ಅವರು ಸೇರಿದಂತೆ ಇತರ ಜನಪ್ರತಿನಿಧಿಗಳು, ದಾನಿಗಳು ಸಹಕರಿಸಿದ್ದಾರೆ. ನಮ್ಮ ಕುಲಸಚಿವರು ಮತ್ತು ಎಲ್ಲಾ ಉಪನ್ಯಾಸಕ ವೃಂದ ಕೂಡ ಅಭಿವೃದ್ಧಿಗಾಗಿ ಶ್ರಮಿಸಿದೆ. ತುಮಕೂರು ವಿವಿ ಅಭಿವೃದ್ಧಿ ಪಡಿಸಲು, ಸೇವೆ ಸಲ್ಲಿಸಲು ಅವಕಾಶ ನೀಡಿದ್ದಕ್ಕಾಗಿ ಚಿರ ಋಣಿಯಾಗಿದ್ದೇನೆ.

## ಗುಣಮಟ್ಟದಲ್ಲಿ ಸಾಧನೆ

ಬೋಧನೆ, ಸಂಶೋಧನೆ ಮತ್ತು ವಿಶ್ವಲಕ್ಷಾ ಚಟುವಟಿಕೆಯಲ್ಲಿ ವಿವಿ ಪ್ರಗತಿ ಸಾಧನೆ ಸಾಧಿಸುತ್ತಿದೆ. ಈ ಎಲ್ಲಾ ಕಾರ್ಯಗಳು ಕೇವಲ ಎರಡು ವರ್ಷದಲ್ಲೇ ಆಗಿದೆ. ನಾನು ವಿವಿಗೆ ಬಂದಾಗ ಮೂರು ಜನ ಉಪನ್ಯಾಸಕರು, ಕುಲಪತಿಗಳು, ಕುಲಸಚಿವರು ಮಾತ್ರ ಖಾಯಂ ಹುದ್ದೆಯಾಗಿತ್ತು. ಈಗ ವಿವಿಗೆ ಎಲ್ಲಾ ಬೋಧಕ, ಬೋಧಕೇತರ ಒಟ್ಟು 200 ಕಟ್ಟಡಗಳು ಸೇರಿದಂತೆ ವಿನ್ಯಾಸಗಳು ಆಗಿವೆ. 20 ಮೂಲ ಸೌಲಭ್ಯಗಳು ಲಭ್ಯವಾಗಿವೆ. ವರ್ಷ ಯಾವುದೇ ರೀತಿಯ ತೊಂದರೆ ಇಲ್ಲದಂತೆ ವಿವಿ ನಡೆಸುವ ಸಾಮರ್ಥ್ಯ ಹೊಂದಿದೆ.

ತುಮಕೂರು: ಈ ದಾರಿಯಲ್ಲಿ ಯಾರೇ ಬಂದರೂ ಕ್ಷಣಕಾಲ ನಿಂತು ಮುಂದೆ ಸಾಗಬೇಕು. ಅಷ್ಟರಮಟ್ಟಿಗೆ ಅವುಗಳು ತನ್ನಯತೆ ಮೂಡಿಸುತ್ತಿವೆ. ಅದಕ್ಕೆ ಕಾರಣ ತುಮಕೂರು ವಿಶ್ವವಿದ್ಯಾಲಯದ ವಿಸ್ತರಣೆ ಪ್ರಯೋಗ.

'ಕಲಾರಾಧನೆ' ಎಂಬ ಸಾಂಸ್ಕೃತಿಕ ಹಾದಿಯಲ್ಲಿ ಸ್ಮಾರಕಗಳನ್ನೇ ಅಲ್ಲದೆ ಜನಪದ, ಸಂಸ್ಕೃತಿ, ಕಲೆ, ಭಾಷೆ ವೈವಿಧ್ಯತೆ ಪ್ರತಿನಿಧಿಸುವ ಸ್ಮಾರಕ, ಸ್ತಂಭಗಳ ಕುಂತು ಸಿಮೆಂಟ್ ಪ್ರೈಮ್‌ನಲ್ಲಿ ಮೂಡಿಸಿರುವ ಚಿತ್ರ, ಕೃಷಿ ಸಲಕರಣೆಗಳು ಕಣ್ಗನಿಸಿ ಸೆಳೆಯುತ್ತವೆ.
